OKLAHOMA CITY THUNDER
Job Posting
Performance Scientist

The Performance Scientist will lead player load monitoring strategies through data collection and data analysis.

Essential Responsibilities
• Lead and manage player load monitoring strategies
• Lead performance technology research and implementation
• Present data-driven reports that influence day-to-day activities
• Collaborate on recovery strategies and implementation
• Collaborate on research opportunities with internal departments
• Oversee development team performance science
• Oversee performance science internship program
• Carry out other administrative tasks consistent with the policies and procedures of the NBA, NBA D-League, Oklahoma City Thunder and Oklahoma City Blue

Qualifications and Requirements
• A MS in Sport or Exercise Science or related area is required. A PhD or clinical doctorate degree in Sport or Exercise Science or related area is preferred.
• 3 year minimum experience working in a team sport setting, preferably amateur or professional basketball, integrating monitoring strategies that drive performance and recovery
• Proven outputs with data collection, data management, and data analysis
• Experience with data visualization tools required
• Experience with video editing tools required
• Experience with one or more of the following statistical packages: R, SAS, Stata, SPSS, or similar programs preferred.
• Demonstrated ability to take initiative, think and work independently, problem-solve and work in small teams
• Demonstrated ability to work under pressure and meet deadlines
• Must be able to work long hours on short notice including weekends and nights
• Position requires full-time residence in Oklahoma City, Oklahoma

This is a full-time, exempt position reporting to the Director of Medical Services
