Resources on Anti-Doping in Equestrian Sports

Compliance with Main and Specific Policy Areas

This submission addresses Theme 3’s “Fight against doping”, in the follow-up policy framework. More precisely, it provides resources and contributions to the implementation framework, with respect to combatting doping of animal athletes in equestrian sports.

Abstract

The UNESCO International Convention Against Doping in Sport has given rise to a strong body of national laws, international agreements, and social norms to combat the use of performance-enhancing drugs and illicit techniques amongst human athletes. As importantly, the Convention has advanced public understanding that sport officials who allow, encourage, or coerce human athletes to use such drugs and techniques are committing grave abuses against athlete welfare, by imposing upon them serious long-term health damage and the risk of early death.

The Convention has fostered similar progress with respect to animal athletes in equestrian sports, especially in the Olympic and Paralympic disciplines of Dressage, Eventing, Jumping, and Modern Pentathlon, and Para-Dressage.

Arguably, the use of performance-enhancing drugs and illicit techniques with animal athletes is especially abusive, in that such athletes have no capacity to understand or to refuse what is being done to them. Accordingly, when such abuse has caused animal athletes to suffer catastrophic injury or death on the competition field, it has had a notably corrosive effect on public confidence in the integrity of international sport.

We encourage the Working Group to include resources and standards against animal athlete performance-enhancing drugs and illicit techniques, to ensure that they inform the global consensus and sport policy implementation framework to be produced by MINEPS VI.

INTRODUCTION

Preface

These Equine Anti-Doping and Controlled Medication Regulations (hereinafter “EADCM Regulations” or “Regulations”) are adopted and implemented in conformity with the undertakings of the FEI in the spirit of the World Anti-Doping Code (2015 version) with respect to the EAD Rules and otherwise with deference to the findings of the “Joint Commission”, notably the Clean Sport Commission, Chaired by Professor Arne Ljungqvist (hereinafter “Ljungqvist Commission”) which was initiated by FEI Athletes in September 2008 who stepped forward to identify a problem, and the Stevens Commission, chaired by Lord Stevens. The findings of both Commissions were debated and ultimately harmonised to form the Joint Commission on 9 October 2009 in Copenhagen, Denmark. The Equine Anti Doping Rules (hereinafter “EAD Rule” or “EAD Rules”), the first chapter of the EADCM Regulations, shall apply to any violation alleged under the EADCM Regulations that involves a Banned Substance or Banned Method. Conversely, the Equine Controlled Medication Rules (hereinafter “ECM Rule” or “ECM Rules”), the second chapter of the EADCM Regulations, shall apply to any violation alleged under the EADCM Regulations that involves a Controlled Medication Substance or a Controlled Medication Method.

These EADCM Regulations, adopted in their original form by the General Assembly in November 2009, specifically incorporate the material findings of the Joint Commission. One of the most significant recommendations to emerge from the Commission was the suggestion to establish two (2) separate and distinct approaches to Doping, on the one hand, which is defined in the EAD Rules Articles 2.1-2.8; and Controlled Medication, on the other hand, as defined in the ECM Rules. Consequently, these two (2) categories of rules are being presented in one comprehensive Rule book, in separate chapters, for ease of use and understanding. This new approach brings with it a change in the applicable terminology. Going forward, any substance prohibited by the EADCM Regulations will be referred to as a Prohibited Substance which is now meant to be the umbrella term. However, substances classified as Doping under the EAD Rules will be referred to as Banned Substances while substances classified as Controlled Medication under the ECM Rules will be referred to as Controlled Medication Substances.

EADCM Regulations are Sport Rules governing the conditions under which sport is performed. Persons Responsible (including additional Persons Responsible, see below) and their Support Personnel accept these Regulations as a condition of participation and involvement in FEI activities and shall therefore be bound by them. The introduction of Support Personnel into these Regulations is not entirely new as the FEI General Regulations have always provided for the opportunity to include an “additional Person Responsible” in the prosecution of a case where the factual circumstances have warranted that Person’s inclusion. The incorporation and moderate expansion of the concept within the new Regulations is intended to ensure that all participants in equestrian sport who violate the EADCM Regulations will be held accountable. It is fundamental, however, that the inclusion of Support Personnel is in no way intended to lessen or shift the responsibility of the Person Responsible. The Person Responsible remains ultimately responsible, and thereby ultimately liable, for EADCM violations. Where appropriate, and only when the specific factual circumstances so warrant, Support Personnel will be held additionally responsible.

EADCM Regulations are not intended to be subject to or limited by the requirements and legal standards applicable to criminal proceedings or employment matters. The policies and minimum standards set forth in these Regulations represent the consensus of a broad
INTRODUCTION

spectrum of stakeholders with an interest in fair sport and Horse welfare and should be respected by all courts and adjudicating bodies.

**Fundamental Rationale for the FEI’s EADCM Regulations**

Anti-Doping programs seek to preserve what is intrinsically valuable about sport. This intrinsic value is often referred to as "the spirit of sport"; it is the essence of Olympism; it is how we play true. The spirit of sport is the celebration of the human spirit, body and mind, and is reflected in the values we find in and through sport, including:

- Ethics, fair play and honesty
- Health
- Excellence in performance
- Character and education
- Fun and joy
- Teamwork
- Dedication and commitment
- Respect for rules and laws
- Respect for self and other participants
- Courage
- Community and solidarity

Doping is fundamentally contrary to the spirit of sport.

**Scope**

These revised EADCM Regulations are effective as of 1 January 2016. They must be read in conjunction with the FEI Statutes, General Regulations, Veterinary Regulations, Internal Regulations of the FEI Tribunal, the FEI Standard for Laboratories, and any other applicable rules or regulations.

These EADCM Regulations shall apply to the FEI, each National Federation, and each Person Responsible and their Support Personnel by virtue of their membership in, accreditation by, or participation in the FEI or National Federation, or in their activities, Competitions or Events.

To be eligible for participation in FEI Events, a Person Responsible or Horse must be registered with the FEI and be a registered member of an FEI National Federation, unless special circumstances under the FEI General Regulations allow otherwise.

Each National Federation shall guarantee that all registered Persons Responsible, members of their Support Personnel (where possible), and other Persons (where possible) under its jurisdiction accept the Statutes, Regulations and all rules of the FEI, including these EADCM Regulations and any other applicable rules or regulations.

These EADCM Regulations shall therefore apply to all Doping and Medication Controls over which the FEI or its National Federations have jurisdiction or have been delegated jurisdiction by another governing body, subject to Article 13.1 of both the EAD Rules and the ECM Rules. However, there may be modified versions of these rules for Events where minors are competing on borrowed Horses, if the circumstances so warrant and the FEI Bureau has approved such rules (such as for the Youth Olympic Games.) The EADCM Regulations, particularly as they apply to Banned Substances (the EAD Rules), have
intentionally been modeled after the 2015 WADA Model Code for human athletes. Conversely, the ECM Rules have been developed with special consideration for the need to administer responsible Controlled Medication Substances to Horses to ensure Horse welfare and the highest levels of professionalism. Given the clear distinction between Doping and Medication established by the two separate chapters of the EADCM Regulations – the EAD Rules (Chapter I) and the ECM Rules (Chapter II) – a Veterinary Form (see FEI Veterinary Regulations) shall only be available in connection with a Controlled Medication Substance under the ECM Rules and not in connection with a Banned Substance under the EAD Rules.

**Note:** The masculine gender used in relation to any physical person (for example, names such as Person Responsible, Athlete, Owner, Judge, Technical Delegate, Official, Chef d’Equipe, or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.
EQUINE ANTI-DOPING RULES

ARTICLE 1  DEFINITION OF DOPING

Doping is defined as the occurrence of one or more of the EAD Rule violations set forth in Article 2.1 through Article 2.8 of these EAD Rules.

ARTICLE 2  EAD RULE VIOLATIONS

The purpose of Article 2 is to specify the circumstances and conduct which constitute EAD rule violations. Hearings in doping cases will proceed based on the assertion that one or more of these specific rules have been violated.

Persons Responsible and/or their Support Personnel shall be responsible for knowing what constitutes an EAD Rule violation and the substances and methods which have been included on the Equine Prohibited Substances List and identified as Banned Substances and Banned Methods.

Where Banned Substances or Banned Methods are involved, the following constitute EAD Rule violations:

2.1  The Presence of a Banned Substance and/or its Metabolites or Markers in a Horse’s Sample

2.1.1  It is each Person Responsible’s personal duty to ensure that no Banned Substance is present in the Horse’s body. Persons Responsible are responsible for any Banned Substance found to be present in their Horse’s Samples, even though their Support Personnel will be considered additionally responsible under Articles 2.2 - 2.8 below where the circumstances so warrant. It is not necessary that intent, fault, negligence or knowing Use be demonstrated in order to establish an EAD Rule violation under Article 2.1.

2.1.2  Sufficient proof of an EAD Rule violation under Article 2.1 is established by any of the following: (i) presence of a Banned Substance and/or its Metabolites or Markers in the Horse’s A Sample where the Person Responsible waives analysis of the B Sample and the B Sample is not analysed; or, (ii) where the Horse’s B Sample is analysed and the analysis of the Horse’s B Sample confirms the presence of the Banned Substance and/or its Metabolites or Markers found in the Horse’s A Sample. An Adverse Analytical Finding may be established by a positive blood or urine Sample.

2.1.3  Excepting those Banned Substances for which a quantitative threshold is specifically identified in the Equine Prohibited Substances List, the presence of any quantity of a Banned Substance and/or its Metabolites or Markers in a Horse’s Sample shall constitute an EAD Rule violation.

2.1.4  As an exception to the general rule of Article 2.1, the Equine Prohibited Substances List or the FEI Standard for Laboratories may establish special criteria for the evaluation of Banned Substances that can also be produced endogenously.
2.2 **Use or Attempted Use of a Banned Substance or a Banned Method.**

2.2.1 It is each Person Responsible’s personal duty, along with members of their Support Personnel, to ensure that no Banned Substance enters into the Horse’s body and that no Banned Method is Used. Accordingly, it is not necessary that intent, fault, negligence or knowing Use on the part of the Person Responsible, or member of his Support Personnel (where applicable), be demonstrated in order to establish an EAD Rule violation for Use of a Banned Substance or a Banned Method. However, in accordance with the definition of Attempt, it is necessary to show intent in order to establish an EAD Rule violation for Attempted Use of a Banned Substance or a Banned Method.

2.2.2 The success or failure of the Use or Attempted Use of a Banned Substance or a Banned Method is not material. It is sufficient that the Banned Substance or Banned Method was Used or Attempted to be Used for an EAD Rule violation to be committed.

2.3 **Evading, Refusing or Failing to Submit to Sample Collection**

2.3.1 Evading Sample collection, or without compelling justification, refusing or failing to submit to Sample collection after Notification (in accordance with the FEI Veterinary Regulations) or to comply with all Sampling procedure requirements including signing the Sampling form or otherwise evading Sample collection.

2.3.2 It is each Person Responsible’s personal duty to ensure that if the Horse with/on which they competed or will compete is selected for Sampling and a notification of Sampling in accordance with the FEI Veterinary Regulations has taken place, such Horse is submitted to Sample collection and that all Sampling procedure requirements are met.

2.3.3 Accordingly, although it is permissible for the Person Responsible to delegate the submission and supervision of the Horse to a third party, the Person Responsible remains responsible for the Horse throughout the Sample collection process and for:

(i) any evasion of Sample collection; and/or

(ii) any refusal or failure, without compelling justification, to submit the Horse to Sample collection; and/or

(iii) any failure to comply with any or all of the Sampling procedure requirements, including signing the Sampling form.

2.3.4 It is not necessary to demonstrate intent, fault, negligence or knowledge in relation to any delegation relating to the Sampling process or to the acts of a relevant third party in order to establish an EAD Rule violation under this Article 2.3.

2.4 **Tampering, or Attempted Tampering with any part of Doping Control.**

2.5 **Administration or Attempted Administration of a Banned Substance.**
2.6 **Possession of a Banned Substance(s) or a Banned Method(s).**

This bans the Person Responsible and members of their Support Personnel from Possessing Banned Substances or Banned Methods, unless he demonstrates compelling justification for the Possession (This section should be read in conjunction with the definition of Possession set forth in Appendix 1).

2.7 **Trafficking or Attempted Trafficking in any Banned Substance or Banned Method.**

2.8 **Complicity**

Assisting, encouraging, aiding, abetting, covering up or any other type of complicity involving an EAD Rule violation or any Attempted EAD Rule violation.

2.9 **Prohibited Association**

Association by a Person Responsible subject to the authority of the FEI in a professional or sport-related capacity with any Support Person who:

2.9.1 If subject to the authority of the FEI, is serving a period of Ineligibility; or

2.9.2 If not subject to the authority of the FEI and where Ineligibility has not been addressed in a results management process pursuant to the Code, has been convicted or found in a criminal, disciplinary or professional proceeding to have engaged in conduct which would have constituted a violation of anti-doping rules if Code-compliant rules had been applicable to such Person. The disqualifying status of such Person shall be in force for the longer of six years from the criminal, professional or disciplinary decision or the duration of the criminal, disciplinary or professional sanction imposed; or

2.9.3 Is serving as a front or intermediary for an individual described in Article 2.9.1 or 2.9.2.

In order for this provision to apply, it is necessary that the Person Responsible has previously been advised in writing by the FEI of the Support Person’s disqualifying status and the potential Consequence of prohibited association and that the Person Responsible or other Person can reasonably avoid the association. The FEI shall also use reasonable efforts to advise the Support Person who is the subject of the notice to the Person Responsible or other Person that the Support Person may, within 15 days, come forward to FEI to explain that the criteria described in Articles 2.9.1 and 2.9.2 do not apply to him or her. (Notwithstanding Article 16, this Article applies even when the Support Person’s disqualifying conduct occurred prior to the effective date provided in Article 16.)

The burden shall be on the Person Responsible to establish that any association with the Support Person described in Article 2.9.1 and 2.9.2 is not in a professional or sport-related capacity.
ARTICLE 3 PROOF OF EAD RULE VIOLATIONS

3.1 Burdens and Standards of Proof

The FEI shall have the burden of establishing that an EAD Rule violation has occurred. The standard of proof shall be whether the FEI has established an EAD Rule violation to the comfortable satisfaction of the Hearing Panel bearing in mind the seriousness of the allegation which is made. This standard of proof in all cases is greater than a mere balance of probability but less than proof beyond a reasonable doubt. Where these EAD Rules place the burden of proof upon the Persons Responsible and/or member of their Support Personnel to rebut a presumption or establish specified facts or circumstances, the standard of proof shall be by a balance of probability, except where a different standard of proof is specifically identified.

3.2 Methods of Establishing Facts and Presumptions

Facts related to EAD Rule violations may be established by any reliable means, including admissions. The following rules of proof shall be applicable in Doping cases brought under these EAD Rules:

3.2.1 FEI-approved Laboratories are presumed to have conducted Sample analysis and custodial procedures in accordance with the FEI Standard for Laboratories. The Person Responsible and/or member of the Support Personnel who is alleged to have committed the EAD Rule violation may rebut this presumption by establishing by a balance of probability that a departure from the FEI Standard for Laboratories occurred which could reasonably have caused the Adverse Analytical Finding.

If the preceding presumption is rebutted by showing that a departure from the FEI Standard for Laboratories occurred which could reasonably have caused the Adverse Analytical Finding, then the FEI shall have the burden to establish that such departure did not cause the Adverse Analytical Finding.

3.2.2 Departures from another FEI standard, FEI Rule or Regulation, FEI Manual or policy which did not by a balance of probability cause an Adverse Analytical Finding or other EAD Rule violation shall not invalidate such results. If the Person Responsible and/or member of the Support Personnel (where applicable) establishes, by a balance of probability, that a departure from another FEI standard, FEI Rule or Regulation, FEI Manual or policy could reasonably have caused the EAD Rule violation based on the Adverse Analytical Finding or other EAD Rule violation, then the FEI must prove that the departure did not cause the Adverse Analytical Finding or the factual basis for the EAD Rule violation.

3.2.3 The facts established by a Decision of a court or professional disciplinary tribunal of competent jurisdiction which is not the subject of a pending appeal shall be irrebuttable evidence against the Person Responsible and/or member of the Support Personnel to whom the Decision pertained with regards to the factual findings unless it can be established that the Decision violated principles of natural justice.
3.2.4 The Hearing Panel presiding over a case alleging an EAD Rule violation may draw an inference adverse to the Person Responsible and/or member of the Support Personnel (where applicable) who is asserted to have committed an EAD Rule violation based on the refusal, after a request made in a reasonable time in advance of the hearing, to appear at the hearing (either in person or telephonically as directed by the FEI Tribunal) in order to answer questions from the Hearing Panel or the FEI.

ARTICLE 4 THE EQUINE PROHIBITED SUBSTANCES LIST

4.1 Incorporation of the Equine Prohibited Substances List

These EAD Rules incorporate the Equine Prohibited Substances List (the “List”) which is published and revised by the FEI from time to time. The FEI will publish the current List in such a manner that it is available to its members and constituents, including, but not limited to, publication on the FEI website.

4.2 Review and Publication of Banned Substances and Banned Methods Identified on the List

The FEI may revise the List from time to time but at least once annually by posting the new List on the FEI website, or via such other appropriate channel, but such new List shall not go into effect any sooner than ninety (90) days following its publication. Each new version of the List shall also be sent by email to National Federations and to National Head FEI Veterinarians at email addresses supplied by the National Federations and on file with the FEI. The List shall be published by the FEI at least once a year, with an opportunity for National Federation and stakeholder feedback. All Persons Responsible and/or member of the Support Personnel shall be bound by the Prohibited List, and any revisions thereto, from the date they go into effect, without further formality. It is the responsibility of all Persons Responsible and/or member of the Support Personnel to familiarize themselves with the most up-to-date version of the Prohibited List and all revisions thereto.

4.3 Substances and Methods included on the List

The FEI’s categorization of a substance or method on the List as a Banned Substance or Banned Method (in particular, as opposed to a Controlled Medication Substance or Method) including any establishment of a threshold for a Banned Substance and/or the quantitative amount of such threshold shall be final and binding on all parties and shall not be subject to challenge by a Person Responsible, member of the Support Personnel or any other Person on any basis.

4.4 Specified Substances

For purposes of the application of Article 10 and Article 7.4, Specified Substances shall be taken as meaning only those Prohibited Substances identified as Specified Substances on the Prohibited List.
ARTICLE 5 TESTING

5.1 Authority to Test

All Horses registered with the FEI or a National Federation, or otherwise present or competing at an International Event, National Event or Competition, shall be subject to In-Competition Testing (a) by the FEI or by any other Anti-Doping Organisation responsible for Testing at a Competition or Event in the case of International Events and (b) in the case of National Events, by the National Federation through which the Horse is registered, or by any other Anti-Doping Organisation responsible for Testing at a Competition or Event.

The FEI or its assignees or agents shall be exclusively responsible for Testing at International Events and no other body may conduct Testing at International Events without the FEI’s express written permission. Each National Federation or its assignees or agents, shall be exclusively responsible for Testing at its National Events, and no other body may conduct Testing at National Events without the National Federation’s express written permission. National Federations are responsible for Results Management arising from Testing at National Events but are obligated to promptly report any positive findings to the FEI that have been notified as anti-doping rule violations unless doing so would contravene national law.

All Horses registered with the FEI or a National Federation shall be subject to intelligence based Out-of-Competition Testing by the FEI. Nothing in these Rules shall preclude any National Federation from adopting its own Out-of-Competition Testing protocols, subject to Article 13.1.

5.2 Responsibility for FEI Testing

The FEI Veterinary Department shall be responsible for overseeing all Testing conducted by the FEI. Testing may be conducted by the Testing Veterinarians, Veterinary Delegate, and/or by other qualified and authorised persons at a given Event or at such other place as authorised by these EAD Rules, the FEI Veterinary Regulations, or as authorised in writing by the FEI Secretary General or his or her designee(s).

5.3 Testing Standards

Testing conducted by or on behalf of the FEI shall be in substantial conformity with the Testing procedures set forth in the FEI Veterinary Regulations in effect at the time of Testing.

5.4 Selection of Horses to be Tested

5.4.1 The FEI shall determine the number of Tests to be performed and on which Horses they shall be performed.

5.4.2 In addition to the selection procedures set forth in Article 5.4.1 above, the Veterinary Commission, Veterinary Delegate and/or Testing Veterinarians may also select Horses for Random Testing and/or Target Testing in cooperation with the Ground Jury at International Events.
5.4.3. Each National Federation shall determine, within its jurisdiction, the number of Tests to be performed and on which Horses they shall be performed.

5.4.4. Nothing in these EAD Rules shall be construed to limit where the FEI is authorised to conduct Testing on Horses In-Competition.

ARTICLE 6 ANALYSIS OF SAMPLES

Samples collected under these EAD Rules and arising from FEI Testing are the property of the FEI. They shall be analysed in accordance with the following principles:

6.1 Use of Approved Laboratories

These EAD Rules incorporate the FEI List of Approved Laboratories which is published and revised by the FEI from time to time. The FEI shall send Samples for analysis only to these approved Laboratories, which are subject to the FEI Standard for Laboratories. The choice of Laboratory used for the Sample analysis of either or both the A and B Sample shall be determined exclusively by the FEI. However, the Person Responsible may elect to have the B Sample analysed at a different Laboratory than the one which performed the A Sample analysis. If such an election is made, the FEI shall select the B Sample Laboratory from the FEI List of Approved Laboratories and inform the Person Responsible accordingly.

6.2 Purpose of Collection and Analysis of Samples

Samples shall be analysed to detect Banned Substances and Banned Methods, all as set forth in the List. The FEI may also seek to detect other substances for research and monitoring purposes, as publicly announced by the FEI from time to time pursuant to a defined monitoring program. Samples may be collected and stored for future analysis.

6.3 Research on Samples

No Sample may be used for any purpose other than as described in Article 6.2 above, without the Person Responsible’s written consent. Those Samples used for purposes other than as set forth in Article 6.2 (for example research) following written consent from the Person Responsible shall have all means of identification removed from the Sample so it cannot be traced back to a particular Horse or Person Responsible. All Samples shall be destroyed pursuant to the guidelines set forth in the FEI Standard for Laboratories and in no event later than the lapse of the Statute Of Limitations in Article 14 below.

6.4 Standards for Sample Analysis and Reporting

Laboratories shall analyse Samples and report results in conformity with the FEI Standard for Laboratories.

6.5 Retesting Samples
A *Sample* may be reanalysed for the purpose of Article 6.2 above at any time exclusively at the direction of the FEI. The circumstances and conditions for retesting *Samples* shall conform with the requirements of the *FEI Standard for Laboratories*. The retesting of *Samples* may lead to an EAD Rule violation only if the *Sample* was taken at the Olympic, Paralympic or World Equestrian Games and only if the *Banned Substance* or *Banned Method* was prohibited at the time the *Sample* was taken, all subject to Article 14.

### 6.6 Equestrian Community Integrity Unit

The *Equestrian Community Integrity Unit* (ECIU) shall have the power to conduct investigations arising from or related to these *EAD Rules* in order to protect the integrity of the FEI and equestrian sport, as set forth in the *FEI Statutes*. The refusal of a *Person Responsible* or member of the *Support Personnel* to cooperate with the ECIU may result in an adverse inference being drawn against that Person in any related *FEI Tribunal* proceeding. If the Equestrian Community Integrity Unit determines that it has a good faith basis to pose questions relating to any investigation to a *Person Responsible* or member of the *Support Personnel* and such *Person* refuses to answer such questions, he may be prohibited from participating in any *FEI* activities until such questions are answered to the satisfaction of the ECIU. Any *Person Responsible* or member of the *Support Personnel* may file a Protest to the *FEI Tribunal* under Article 163 of the *FEI General Regulations* arguing that he has a good faith basis to refuse answering such questions to the satisfaction of the ECIU.

### ARTICLE 7 RESULTS MANAGEMENT

#### 7.1 Results Management for Tests arising out of *FEI* Testing or other *EAD Rule* violations

Results management for *Tests* arising out of *FEI Testing* or other *EAD Rule* violations shall proceed as set forth below:

**7.1.1** The results of all *Sample* analyses must be sent exclusively to the FEI, in a report signed by an authorised representative of the *Laboratory*. All communications must be conducted in such a way that the results of the *Sample* analyses are confidential.

**7.1.2** Upon receipt of an *Adverse Analytical Finding*, the FEI shall conduct a review to determine whether there is any apparent departure from *Testing* procedures of the *FEI Veterinary Regulations*, the *FEI Standard for Laboratories* or another *FEI* standard, *FEI Rule* or Regulation, *FEI Manual* or policy that caused the *Adverse Analytical Finding*.

**7.1.3** If (i) the review under Article 7.1.2 reveals an apparent departure from the *Testing* procedures of the *FEI Veterinary Regulations*, the *FEI Standard for Laboratories* or another *FEI* standard, *FEI Rule* or Regulation, *FEI Manual* or policy that caused the *Adverse Analytical Finding*, the entire test shall be considered negative, and/or (ii) upon the review, the FEI *Decides* not to bring forward the *Adverse Analytical Finding* as an EAD Rule violation, the FEI shall promptly *Notify* the *Person Responsible* and the *Owner of the Horse*. 
7.1.4 If the review of an Adverse Analytical Finding under Article 7.1 does not reveal an apparent departure from the Testing procedures of the FEI Veterinary Regulations, the FEI Standard for Laboratories or another FEI standard, FEI Rule or Regulation, FEI Manual or policy that caused the Adverse Analytical Finding, the FEI shall promptly Notify the Person Responsible and the Owner of the Horse (if applicable) of:

(a) the Adverse Analytical Finding;

(b) the EAD Rule violated;

(c) the Person Responsible’s and the Owner of the Horse’s (if applicable) right to promptly request the analysis of the B Sample, or, failing such request, that the B Sample analysis may be deemed waived;

(d) the opportunity for the Person Responsible and the Owner of the Horse (if applicable) to elect to have the B Sample analysed at a different laboratory than the one which performed the A Sample analysis, such Laboratory to be chosen by the FEI, and the opportunity to send a representative (witness) to be present for the B Sample analysis within the time period specified in the FEI Standard for Laboratories unless allowing such representative or witness presents a threat to the integrity of the analysis process. Where both the Person Responsible and the Owner have elected to have the B Sample analysed but one of them has elected to have the B Sample analysed at a different laboratory than the one which performed the A Sample analysis and the other one has elected to have the B Sample analysed at the same laboratory as the one which performed the A Sample analysis, it shall be for the FEI to decide the question taking into account all relevant circumstances;

(e) the right of the Person Responsible and the Owner of the Horse (if applicable) to request copies of the A and B Sample (if applicable) Laboratory Documentation Package which includes information as specified in the FEI Standard for Laboratories;

(f) the right of the Person Responsible and/or the FEI to request to the FEI Tribunal that Article 9.1 (Automatic Disqualification) be promptly applied where the B Sample Analysis confirms the A Sample Analysis or where the right to request the B Sample Analysis is waived;

(g) the Person Responsible’s and the Owner of the Horse’s right to request the hearing or, failing such request within the deadline specified in the notification, that the hearing may be deemed waived in accordance with Article 7.6.2;

(h) the opportunity to provide a written explanation about the overall circumstances of the case or to dispute (within a specific deadline indicated in the notification) the assertion that an anti-doping rule violation has occurred;
(i) the opportunity to make an agreement with the FEI about the Consequences that are mandated by these EAD Rules or (where some discretion as to Consequences exists under these Anti-Doping Rules) that have been offered by the FEI, subject to the approval of the FEI Tribunal of such agreement;

(j) the imposition of a mandatory Provisional Suspension in accordance with Article 7.4.1;

(k) the imposition of an optional Provisional Suspension where the FEI Tribunal decides to impose it in accordance with Article 7.4.2;

(l) the opportunity to voluntarily accept a Provisional Suspension pending the resolution of the matter, in all cases where a Provisional Suspension has not been imposed;

(m) the opportunity to promptly admit the EAD Rule violation and consequently request that the early commencement of the period of Ineligibility in accordance with Article 10.10.3; and

(n) the opportunity to cooperate and provide substantial assistance in discovering or establishing an anti-doping rule violation.

7.1.5 Pursuant to Article 7.1.4 (d) above, within seven (7) days of receipt of the duly executed Confirmatory Analysis Request Form (B Sample), the FEI will propose possible dates for such analysis. The Person Responsible and the Owner of the Horse (if applicable) may accept the A Sample analytical results by waiving the right to a B Sample analysis. The FEI may nonetheless elect at its discretion to proceed with the B Sample analysis. In such case, the B Sample analysis shall only be used to confirm the A Sample Adverse Analytical Finding. The Person Responsible and the Owner of the Horse (if applicable) is deemed to have waived his right to a B Sample analysis if he does not submit the Confirmatory Analysis Request Form within the stipulated time-limit in the Notification.

7.1.6 In addition to the Person Responsible and the Owner of the Horse (if applicable) and his/her representative (witness), a representative of the National Federation(s) involved as well as a representative of the FEI shall also be allowed to be present for the B Sample analysis. If Notice under Article 7.1.4 has not been carried out through the National Federation, the National Federation shall be informed in a timely manner by the FEI of the Adverse Analytical Finding and its right to attend the B Sample analysis.

7.1.7 If the B Sample proves negative, then the entire test shall be considered negative. The FEI shall be informed of the results confidentially and shall Notify the Person Responsible and the Owner of the Horse (if applicable).

7.1.8 If the B Sample analysis confirms the A Sample analysis, the FEI shall be informed of the results confidentially and shall Notify the Person Responsible and the Owner of the Horse (if applicable).
7.1.9 The FEI may conduct any follow-up investigation as may be required. Upon completion of such follow-up investigation, if any, the FEI shall promptly Notify the Person Responsible’s National Federation of the results of the follow-up investigation.

7.1.10 For the avoidance of doubt, an Adverse Analytical Finding confirmed by the B Sample analysis may result from blood or urine Samples, or any combination thereof (for example, a confirmatory B Sample analysis is valid if performed on a blood sample, even if the A Sample Adverse Analytical Finding arose from a urine Test, and vice-versa). In addition, and also for the avoidance of doubt, where the A Sample is positive for a Threshold Banned Substance, as it is quantitatively above the threshold level set for the Banned Substance, the B Sample shall be deemed to confirm the A Sample so long as the level of the B Sample is also quantitatively above the threshold, even if the B Sample level varies quantitatively from the A Sample level.

7.1.11 Where appropriate, the members of the Support Personnel, including the Owner, shall receive Notification of the EAD Rule violation and all relevant corresponding documents.

7.2 Review of Atypical Findings

7.2.1 In some circumstances Laboratories are directed to report the presence of Banned Substances, which may also be produced endogenously, as Atypical Findings subject to further investigation. Upon receipt of an A Sample Atypical Finding, the FEI shall conduct a review to determine whether there is any apparent departure from the Testing procedures, the FEI Standard for Laboratories or another FEI standard, FEI Rule or Regulation, FEI Manual or policy that caused the Atypical Finding. If that review does not reveal any departure that caused the Atypical Finding, the FEI and/or the Equestrian Community Integrity Unit shall conduct the required investigation. After the investigation is completed, the Person Responsible, and the Owner of the Horse (if applicable) and his or her National Federation, shall be Notified whether or not the Atypical Finding will be brought forward as an Adverse Analytical Finding. The Person Responsible’s National Federation shall be Notified as provided in Article 7.1 EAD Rules.

7.2.2 The FEI will not provide Notice of an Atypical Finding until the investigation is completed and it has Decided whether it will bring the Atypical Finding forward as an Adverse Analytical Finding. However, if the FEI determines that the B Sample should be analysed prior to the conclusion of the investigation under Article 7.2, the FEI may conduct the B Sample analysis after supplying the Person Responsible and the Owner of the Horse (if applicable) with such Notice including a description of the Atypical Finding and the information described in Article 7.1.4 (b)-(e) above.

7.3 Review of Other EAD Rule Violations

For apparent EAD Rule violations that do not involve Adverse Analytical Findings, the FEI and/or the Equestrian Community Integrity Unit may conduct any necessary follow-up investigation and at such time as the FEI is satisfied that an EAD Rule violation has occurred, it shall then promptly Notify the Person Responsible, the Owner of the Horse (if applicable) and/or
member of the Support Personnel (where applicable) of the EAD Rule which appears to have been violated and the basis of the violation.

7.4 Provisional Suspensions

7.4.1 The FEI shall provisionally suspend a Person Responsible, member of the Support Personnel, and/or the Person Responsible's Horse prior to the opportunity for a full hearing based on: (a) an admission that an EAD Rule violation has taken place (for the avoidance of doubt, an admission by any Person can only be used to provisionally suspend that Person); or (b) all of the following elements: (i) an Adverse Analytical Finding for a Banned Substance that is not a Specified Substance from the A Sample or A and B Samples; (ii) the review described in Article 7.1.2 above; and (iii) the Notification described in Article 7.1.4 above.

7.4.2 The FEI may provisionally suspend a Person Responsible, member of the Support Personnel, and/or the Person Responsible's Horse prior to the opportunity for a full hearing based on (a) evidence that a violation of these EAD Rules is highly likely to have been committed by the respective Person or (b) all of the following elements (i) an Adverse Analytical Finding for a Banned Substance that is a Specified Substance from the A Sample or A and B Samples; (ii) the review described in Article 7.1.2 above; and (iii) the Notification described in Article 7.1.4 above.

7.4.3 If a Provisional Suspension is imposed by the FEI, either the hearing in accordance with Article 8 below shall be advanced to a date which avoids substantial prejudice to the Person alleged to have committed the EAD Rule violation, or such Person shall be given an opportunity for a Preliminary Hearing either on a timely basis after imposition of the Provisional Suspension or before imposition of the Provisional Suspension in order to show cause why the Provisional Suspension should not be imposed (or should be lifted). Where a Horse is provisionally suspended, the Owner shall also have the right to request a Preliminary Hearing.

7.4.4 The Provisional Suspension shall be maintained unless the Person requesting the lifting of the Provisional Suspension establishes to the comfortable satisfaction of the FEI Tribunal that:

(i) the allegation that an EAD Rule violation has been committed has no reasonable prospect of being upheld, e.g., because of a material defect in the evidence on which the allegation is based; or

(ii) the Person can demonstrate that the evidence will show that he bears No Fault or No Negligence for the EAD Rule violation that is alleged to have been committed, so that any period of Ineligibility that might otherwise be imposed for such offence is likely to be completely eliminated by application of Article 10.4 below or that 10.5 applies and the Person can demonstrate that the evidence will show that he bears No Significant Fault or Negligence and that he has already been provisionally suspended for a period of time that warrants the lifting of
the Provisional Suspension pending a final Decision of the FEI Tribunal; or

(iii) exceptional circumstances exist that make it clearly unfair, taking into account all of the circumstances of the case, to impose a Provisional Suspension prior to the final hearing of the FEI Tribunal. This ground is to be construed narrowly, and applied only in truly exceptional circumstances. For example, the fact that the Provisional Suspension would prevent the Person or Horse competing in a particular Competition or Event shall not qualify as exceptional circumstances for these purposes.

The FEI may also request the lifting of the Provisional Suspension.

**7.4.5** If a Provisional Suspension is imposed based on an A Sample Adverse Analytical Finding and a subsequent B Sample analysis (if requested) does not confirm the A Sample analysis, then the Person(s) alleged to have committed the EAD Rule violation and his member of the Support Personnel, and/or Horse shall not be subject to any further Provisional Suspension on account of a violation of Article 2.1 above (Presence of a Banned Substance and/or its Metabolites or Markers). In circumstances where the Person Responsible and/or his Horse has been removed from a Competition and/or Event based on a violation of Article 2.1 and the subsequent B Sample analysis does not confirm the A Sample finding, if it is still possible for the Person Responsible and his Horse to be re-entered without otherwise affecting the Competition and/or Event, the Person Responsible and his Horse may continue to take part in the Competition and/or Event.

**7.4.6** After the imposition of a Provisional Suspension and prior to a final hearing, the Person Responsible and/or member of the Support Personnel (including Owner) can petition the FEI Tribunal for another Preliminary Hearing provided that new evidence exists that, if known at the time of the earlier Preliminary Hearing, may have satisfied the requirements of Article 7.4.4 above and may have lead to the lifting of the Provisional Suspension. Such petition must be made in writing to the FEI Tribunal and copied to the FEI Legal Department and must clearly establish the existence of such new evidence meeting this criterion. If the request for another Preliminary Hearing is granted by the FEI Tribunal, and provided that a Preliminary Hearing had already taken place at an earlier stage, the same FEI Tribunal member who presided over the prior Preliminary Hearing will Decide the new Preliminary Hearing request, unless exceptional circumstances prevent it from doing so, in which case another FEI Tribunal member will be appointed to conduct the new Preliminary Hearing. If another Preliminary Hearing is granted after the Hearing Panel has been constituted, any member of the Hearing Panel may conduct the Preliminary Hearing. Preliminary Hearing Decisions may be issued by the FEI Tribunal without reasons.

**7.4.7** During a period of Provisional Suspension, no Person Responsible and/or member of the Support Personnel who themselves are provisionally suspended, or a Horse that is provisionally suspended, may participate in any capacity at an Event, or in a Competition or activity, or be present at an Event (other than as a spectator) that is authorised or organised by the FEI or
any National Federation or in Competitions authorised or organised by any international or national level Event organisation.

7.5 Retirement from Sport

If a Person Responsible and/or member of the Support Personnel retires while a Results Management process is underway, the FEI retains jurisdiction to complete its Results Management process. If a Person Responsible and/or member of the Support Personnel retires before any Results Management process has begun, the FEI similarly has jurisdiction to conduct Results Management.

7.6 Resolution Without a Hearing

7.6.1 Agreement between Parties

At any time during the results management process the Person Responsible and/or member of the Support Personnel and/or Owner against whom an EAD Rule violation is asserted may admit that violation at any time, waive a hearing and may agree with the FEI on the Consequences that are mandated by these EAD Rules or (where some discretion as to Consequences exists under these EAD Rules) that have been offered by the FEI. The agreement shall be submitted to the FEI Tribunal for approval and, where approved by the FEI Tribunal, the final agreement shall state the full reasons for any period of Ineligibility agreed, including (if applicable), a justification for why the flexibility in Sanction was applied. Such agreement shall be considered as a decision for the case and will be reported to the parties with a right to appeal under Article 12.2.2 and published as provided in Article 13.3.

7.6.2 Waiver of Hearing

A Person Responsible and/or member of the Support Personnel and/or Owner may waive a hearing expressly.

Alternatively, if the Person Responsible and/or member of the Support Personnel and/or Owner against whom an EAD Rule violation is asserted fails to dispute that assertion within ten (10) days of Notification (or within any other deadline as may be imposed in a specific case) that such a violation is alleged, then he/she shall be deemed to have admitted the violation, to have waived a hearing, and to have accepted the Consequences that are mandated by these EAD Rules or (where some discretion as to Consequences exists under these EAD Rules) that have been offered by the FEI provided that FEI Tribunal approval has been provided.

7.6.3 In cases where Article 7.6.1 or Article 7.6.2 applies, a hearing before a hearing panel shall not be required. Instead the FEI Tribunal shall promptly issue a written decision confirming the commission of the EAD Rule violation and the Consequences imposed as a result, and setting out the full reasons for any period of Ineligibility imposed, including (if applicable) a justification for why the maximum potential period of Ineligibility was not imposed. The FEI shall send copies of that decision to other Anti-Doping Organizations with a right to
appeal under Article 12.2.2, and shall Publicly Disclose that decision in accordance with Article 13.3.

ARTICLE 8       RIGHT TO A FAIR HEARING

8.1 Hearings before the FEI Tribunal

8.1.1 The FEI Tribunal shall Decide all cases involving violations of these EAD Rules.

8.1.2 When the FEI sends a Notice to a Person Responsible and/or a member of the Support Personnel and/or Owner asserting a violation of these EAD Rules and the Person Responsible and/or member of the Support Personnel does not waive a hearing in accordance with Article 7.6.2 then the case shall be assigned to a Hearing Panel of the FEI Tribunal for hearing and adjudication.

8.1.3 Hearings pursuant to this Article shall be completed expeditiously following the completion of the Results Management or investigation process described in Article 7 above and the submission of all relevant evidence and pleadings by the parties. The Person Responsible and/or member of the Support Personnel (where applicable) alleged to have violated the EAD Rules shall cooperate promptly in the submission of such evidence and pleadings and in attendance at a hearing if requested by the FEI Tribunal.

8.1.4 The Person Responsible and/or member of the Support Personnel (including Owner) alleged to have violated the EAD Rules may attend the hearing under all circumstances.

8.1.5 A Person Responsible and/or member of the Support Personnel (where applicable) may acknowledge the EAD Rule violation and accept consequences consistent with Articles 9 and 10 below as proposed by the FEI.

8.2 Principles for a Fair Hearing

All Decisions and hearings under these EAD Rules shall respect the following principles:

(A) fair and impartial Hearing Panel;

(B) the right to be represented by counsel (separately or together) at the Person Responsible’s and/or member of the Support Personnel’s (including Owner’s) own expense;

(C) The right to be fairly and timely informed of the asserted EAD Rule violation;

(D) The right to respond to the asserted EAD Rule violation and resulting consequences;
(E) The right of each party to present evidence (including, but not limited to any evidence the FEI obtains from the activities of the Equestrian Community Integrity Unit);

(F) The right of each party to call and question witnesses (subject to the Hearing Panel’s discretion to accept testimony by telephone or written submission);

(G) A timely hearing, subject to prompt and complete submissions by the parties;

(H) The Person Responsible’s and/or member of the Support Personnel’s (including Owner) right to an interpreter at the hearing if requested at least five (5) business days in advance of the hearing, with the Hearing Panel to determine the identity and responsibility for the costs of the interpreter; and

(I) A timely, written, reasoned Decision, specifically including an explanation for any period of Ineligibility.

8.3 Decisions

8.3.1 At the end of the hearing, or on a timely basis thereafter, the FEI Tribunal shall issue a written decision that includes the full reasons for the decision and for any period of Ineligibility imposed, including (if applicable) a justification for why the greatest potential Consequences were not imposed. The FEI Tribunal may decide to communicate the operative part of the decision to the parties, prior to the reasons. The decision shall be enforceable from such notification of the operative part by courier, facsimile and/or electronic mail.

8.3.2 If no appeal is brought against the decision, then (a) if the decision is that an anti-doping rule violation was committed, the decision shall be Publicly Disclosed as provided in Article 13.3.2; but (b) if the decision is that no anti-doping rule violation was committed, then the decision shall only be Publicly Disclosed with the consent of the Person Responsible and/or member of the Support Personnel. The FEI shall use reasonable efforts to obtain such consent, and if consent is obtained, shall Publicly Disclose the decision in its entirety or in such redacted form as the Person Responsible and/or member of the Support Personnel may approve.

The principles contained at Article 13.3.5 shall be applied in cases involving a Minor.

ARTICLE 9 AUTOMATIC DISQUALIFICATION OF INDIVIDUAL RESULTS

9.1 A violation of these EAD Rules in connection with a test in a given Competition automatically leads to the Disqualification of the result of the Person Responsible and Horse combination obtained in that Competition with all resulting Consequences, including forfeiture of any related medals, points and
prizes. Where applicable, consequences to teams are detailed in Article 11 below.

Even if a Sanction is reduced or eliminated under Article 10 below, such reduction or elimination shall under no circumstances reverse the automatic Disqualification of Individual Results mandated by this Article 9.

9.2 In circumstances where the Person Responsible and Owner are informed of an Adverse Analytical Finding in accordance with Article 7.1 and (i) the B Sample analysis confirms the A Sample analysis; or (ii) the right to request the analysis of the B Sample is not exercised; and (iii) where requested by the FEI and/or the Person Responsible,

the matter will be submitted to the FEI Tribunal who shall decide whether or not to apply Article 9.1 at that stage of the proceedings.

ARTICLE 10 SANCTIONS

10.1 Disqualification of Results in the Event during which an EAD Rule Violation Occurs

The following rules relating to the Disqualification of results will apply:

10.1.1 At the Olympic Games, Paralympic Games, FEI World Equestrian Games, FEI Championships for Seniors, and Regional Games:

An EAD Rule violation occurring during or in connection with an Event shall lead to Disqualification of all of the Person Responsible's individual results obtained in that Event, with any and all Horses with which the Person Responsible competed, with all Consequences (and the resulting consequences to teams as provided in Article 11), including forfeiture of all medals, points and prizes, except as provided in Article 10.1.4.

10.1.2 At Events other than those listed above: an EAD Rule violation occurring during or in connection with an Event may lead to Disqualification of all of the Person Responsible's individual results obtained in that Event, with any and all Horses with which the Person Responsible competed, with all consequences, including forfeiture of all medals, points and prizes, except as provided in Article 10.1.4. Where applicable, consequences to teams will take place as provided in Article 11.

10.1.3 Notwithstanding the above, for all Events, including but not limited to the Olympic and Paralympic Games, exceptional circumstances may be considered. Generally, and subject to 10.1.4 and 10.1.5 below, all Results from Competitions in which the Person Responsible or Horse participated prior to Sample collection shall be Disqualified unless it can be demonstrated that such Results were not likely to have been affected by the EAD Rule violation.

10.1.4 If the Person Responsible establishes that he bears No Fault or Negligence for the EAD Rule violation, the Person Responsible's individual
results in the other Competitions shall not be Disqualified unless the Person Responsible's results in Competitions other than the Competition in which the EAD Rule violation occurred were likely to have been affected by the Person Responsible's EAD Rule violation.

10.1.5 In addition, the Person Responsible’s Horse may also be Disqualified from the entire Event with all Consequences, including forfeiture of all medals, points, and prizes even if earned while being ridden by someone other than the Person Responsible, if the Horse’s results in Competitions other than the Competition in which the EAD Rule violation occurred were likely to have been affected by the EAD Rule violation.

10.2 Ineligibility and Fine for Presence, Use or Attempted Use or Possession of Banned Substances and Banned Methods

10.2.1 The period of Ineligibility for a violation of Articles 2.1, 2.2 or 2.6 shall be as follows, subject to potential reduction or suspension pursuant to Articles 10.4, 10.5 or 10.6, the period of Ineligibility shall be two years.

A fine of up to CHF15,000 shall also be imposed and appropriate legal costs.

10.3 Ineligibility for Other Rule Violations

The Sanction for EAD Rule violations other than as provided in Articles 9, 10.1 and 10.2 above shall be as follows, unless Articles 10.4, 10.5 or 10.6 are applicable:

10.3.1 For violations of Articles 2.3 2.4 or 2.5, the period of Ineligibility shall be two years. A fine of up to CHF15,000 shall also be imposed along with appropriate legal costs.

10.3.2 For violations of Article 2.7, the period of Ineligibility shall be a minimum of four years up to lifetime Ineligibility, depending on the seriousness of the violation.

An Article 2.5 or Article 2.7 violation involving a Minor shall be considered a particularly serious violation and, if committed by member of the Support Personnel, shall result in lifetime Ineligibility for the member of the Support Personnel. For violations of Article 2.7, a fine of up to CHF25,000 shall also be imposed, along with appropriate legal costs. In addition, significant violations of Article 2.5 or 2.7 which may also violate non-sporting laws and regulations, shall be reported to the competent administrative, professional or judicial authorities.

10.3.3 For violations of Article 2.8, the period of Ineligibility imposed shall be up to two years, depending on the seriousness of the violation. A fine of up to CHF15,000 shall also be imposed along with appropriate legal costs.
10.3.5 For violations of Article 2.9, the period of Ineligibility shall be two years, subject to reduction down to a minimum of one year, depending on the Person Responsible and/or a member of the Support Personnel degree of Fault and other circumstances of the case.

10.4 Elimination or the Period of Ineligibility Where there is No Fault or Negligence

If the Person Responsible and/or member of the Support Personnel (where applicable) establishes in an individual case that he/she bears No Fault or Negligence for the EAD Rule violation, the otherwise applicable period of Ineligibility and other Sanctions (apart from Article 9) shall be eliminated in regard to such Person. When a Banned Substance and/or its Metabolites or Markers is detected in a Horse’s Sample in violation of Article 2.1 (presence of a Banned Substance), the Person Responsible and/or member of the Support Personnel (where applicable) must also establish how the Banned Substance entered the Horse’s system in order to have the period of Ineligibility and other Sanctions eliminated. In the event this Article is applied and the period of Ineligibility otherwise applicable is eliminated, the EAD Rule violation shall not be considered a violation for the limited purpose of determining the period of Ineligibility for multiple violations under Article 10.8 below.

Article 10.4 can apply in cases involving Specified Substances. Otherwise Article 10.4 only applies in exceptional circumstances. No Fault or Negligence does not apply in the following circumstances:

(a) where the presence of the Banned Substance in a Sample came from a mislabeled or contaminated supplement. Persons Responsible are responsible for what their Horses ingest and have been warned about the possibility of supplement contamination.

(b) the Administration of a Banned Substance by the Person Responsible’s veterinary personnel or member of the Support Personnel without disclosure to the Person Responsible. Persons Responsible are responsible for their choice of veterinary personnel and Support Personnel and for advising veterinary personnel and Support Personnel that Horses cannot be given any Banned Substance at any time.

10.5 Reduction of the Period of Ineligibility based on No Significant Fault or Negligence

10.5.1 Reduction of Sanctions for Specified Substances and Contaminated Products

10.5.1.1. Specified Substances

Where the EAD rule violation involves a Banned Substance that is a Specified Substance, and the Person Responsible and/or member of the Support Personnel can establish No Significant Fault or Negligence, then the period of Ineligibility shall be, at a minimum, a reprimand and no period of Ineligibility, and at a maximum, two years of Ineligibility, depending on the Athlete’s or other Person’s degree of Fault. Where the Person Responsible and/or member
of the Support Personnel intends to establish that he/she bears No Fault or Negligence, Article 10.4 shall apply.

10.5.1.2. Contaminated Products

In cases where the Person Responsible and/or member of the Support Personnel can establish No Significant Fault or Negligence and that the detected Banned Substance came from a Contaminated Product, then the period of Ineligibility shall be, at a minimum, a reprimand and no period of Ineligibility, and at a maximum, two years Ineligibility, depending on such Person’s and/or member of the Support Personnel’s degree of Fault.

10.5.2. Application of No Significant Fault or Negligence beyond the Application of Article 10.5.1

If a Person Responsible and/or member of the Support Personnel (where applicable) establishes in an individual case that he bears No Significant Fault or Negligence, then the otherwise applicable period of Ineligibility and other Sanctions (apart from Article 9) may be reduced in regard to such Person, but the reduced period of Ineligibility may not be less than one-half of the period of Ineligibility otherwise applicable. If the otherwise applicable period of Ineligibility is a lifetime, the reduced period under this Article may be no less than eight (8) years. When a Banned Substance and/or its Metabolites or Markers is detected in a Horse’s Sample in violation of Article 2.1 (presence of a Banned Substance or its Metabolites or Markers), the Person alleged to have committed the EAD Rule violation must also establish how the Banned Substance or its Metabolites or Markers entered the Horse’s system in order to have the period of Ineligibility reduced.

10.6 Elimination, Reduction, or Suspension of Period of Ineligibility or other Consequences for Reasons Other than Fault

10.6.1 Substantial Assistance in Discovering or Establishing EAD Rule Violations

The FEI Tribunal may, prior to a final appellate Decision under Article 12 below or the expiration of the time to appeal, suspend a part or all of the period of Ineligibility imposed in an individual case where the Person Responsible and/or member of the Support Personnel has provided Substantial Assistance to the FEI, the Equestrian Community Integrity Unit, criminal authority or professional disciplinary body which results in (i) the FEI discovering or bringing forward an EAD Rule violation by another Person or (ii) which results in a criminal or disciplinary body discovering or bringing forward a criminal offence or the breach of professional rules by another Person and the information provided by such Person providing Substantial Assistance is made available to the FEI. Such Substantial Assistance must be independently corroborated in order to reduce the period of Ineligibility and under no circumstance should it amount only to blaming another Person or entity for the alleged EAD Rule violation. The extent to which the otherwise applicable period of Ineligibility may be suspended shall be based on the seriousness of the EAD Rule violation committed and the significance of the Substantial Assistance provided in an effort to promote drug-free equestrian sport. In any event, no more than three-quarters of the otherwise applicable
period of Ineligibility may be suspended. If the otherwise applicable period of Ineligibility is a lifetime, the non-suspended period under this section must be no less than eight (8) years. If the Person Responsible and/or member of the Support Personnel fails to continue to cooperate and to provide the complete and credible Substantial Assistance upon which a suspension of the period of Ineligibility was based, the FEI Tribunal shall reinstate the original period of Ineligibility. If the FEI Tribunal decides to reinstate a suspended period of Ineligibility or decides not to reinstate a suspended period of Ineligibility, that decision may be appealed by any Person entitled to appeal under Article 12.

10.6.2 Admission of an EAD Rule Violation in the Absence of Other Evidence

Where a Person Responsible and/or member of the Support Personnel voluntarily admits the commission of an EAD Rule violation before having received Notice of a Sample collection which could establish an EAD Rule violation (or, in the case of an EAD Rule violation other than Article 2.1, before receiving first Notice of the admitted violation pursuant to Article 7) and that admission is the only reliable evidence of the violation at the time of admission, then the period of Ineligibility may be reduced, but not below one-half of the period of Ineligibility otherwise applicable.

10.6.3 Prompt Admission of an Anti-Doping Rule Violation after being Confronted with a Violation Sanctionable under Article 10.2.1 or Article 10.3.1

A Person Responsible and/or member of the Support Personnel potentially subject to a two year sanction under Article 10.2.1 or 10.3.1 (for evading or refusing Sample Collection or Tampering with Sample Collection), by promptly admitting the asserted anti-doping rule violation after being confronted by the FEI, and also upon the approval and at the discretion the FEI, may receive a reduction in the period of Ineligibility down to a minimum of one half of the otherwise applicable period of Ineligibility, depending on the seriousness of the violation and the Person Responsible and/or member of the Support Personnel's degree of Fault.

10.6.4 Where a Person Responsible and/or member of the Support Personnel Establishes Entitlement to a Reduction in Sanction Under More than One Provision of this Article

If the Person Responsible and/or member of the Support Personnel establishes entitlement to a reduction or suspension of the period of Ineligibility under two (2) or more of Articles 10.4, 10.5 or 10.6, then the period of Ineligibility may be reduced or suspended, but not below one-quarter of the otherwise applicable period of Ineligibility.

10.7 Aggravating Circumstances Which May Increase the Period of Ineligibility

If the FEI establishes in an individual case involving an EAD Rule violation other than violations under Article 2.7 that aggravating circumstances are present which justify the imposition of a period of Ineligibility greater than the standard sanction, then the period of Ineligibility otherwise applicable shall be
increased up to a maximum of four years unless the Person Responsible and/or member of the Support Personnel can prove to the comfortable satisfaction of the FEI Tribunal that he/she did not knowingly commit the EAD Rule violation. The occurrence of multiple substances or methods may be considered as a factor in determining aggravating circumstances under this Article 10.7. The Person Responsible and/or member of the Support Personnel can avoid the application of this Article by admitting the EAD Rule violation as asserted promptly after being confronted by the FEI with the EAD Rule Violation.

10.8 Multiple Violations

10.8.1 For a Person Responsible and/or member of the Support Personnel’s second EAD Rule violation, the period of Ineligibility shall be the greater of:

(a) six months;

(b) one-half of the period of Ineligibility imposed for the first EAD Rule violation without taking into account any reduction under Article 10.6; or

(c) twice the period of Ineligibility otherwise applicable to the second EAD Rule violation treated as if it were a first violation, without taking into account any reduction under Article 10.6.

The period of Ineligibility established above may then be further reduced by the application of Article 10.6.

10.8.2 A third anti-doping rule violation will always result in a lifetime period of Ineligibility, except if the third violation fulfills the condition for elimination or reduction of the period of Ineligibility under Article 10.4 or 10.5, or involves a violation of Article 2.4. In these particular cases, the period of Ineligibility shall be from eight years to lifetime Ineligibility.

10.8.3 An EAD violation for which an Person Responsible and/or member of the Support Personnel has established No Fault or Negligence shall not be considered a prior violation for purposes of this Article.

10.8.4 Additional Rules for Certain Potential Multiple Violations

10.8.4.1 For purposes of imposing sanctions under Article 10.8, an EAD violation will only be considered a second violation if FEI can establish that the Athlete or other Person committed the second EAD Rule violation after the Athlete or other Person received notice pursuant to Article 7, or after FEI made reasonable efforts to give notice of the first anti-doping rule violation. If FEI cannot establish this, the violations shall be considered together as one single first violation, and the sanction imposed shall be based on the violation that carries the more severe sanction.

10.8.4.2 If, after the imposition of a sanction for a first EAD Rule violation, FEI discovers facts involving an EAD Rule violation by the Person Responsible and/or member of the Support Personnel which
occurred prior to notification regarding the first violation, then FEI shall impose an additional sanction based on the sanction that could have been imposed if the two violations had been adjudicated at the same time. Results in all Competitions dating back to the earlier anti-doping rule violation will be Disqualified as provided in Article 10.8.

10.8.5 Multiple EAD Rule and/or ECM Rule Violations During a Ten-Year Period

For purposes of Article 10.8, each EAD Rule/ECM Rule violation must take place within the same ten year period in order to be considered multiple violations.

10.8.6 Violations involving both a Controlled Medication Substance or Method and a Banned Substance or Method

Where a Person Responsible and/or member of the Support Personnel based on the same factual circumstances is found to have committed a violation involving both (a) Controlled Medication Substance(s) or (a) Controlled Medication Method(s) under the ECM Rules and (a) Banned Substance(s) or (a) Banned Method(s) under these EAD Rules, the Person Responsible and/or member of the Support Personnel shall be considered to have committed one EAD Rule violation and the Sanction imposed shall be based on the Banned Substance or Banned Method that carries the most severe Sanction.

10.9 Disqualification of Results in Competitions Subsequent to Sample Collection or Commission of an EAD Rule Violation

10.9.1 In addition to the automatic Disqualification of the results in the Event/the Competition which produced the positive Sample under Article, all other competitive results obtained from the date a positive Sample was collected, or other EAD Rule violation occurred, through the commencement of any Provisional Suspension or Ineligibility period, shall, unless fairness requires otherwise, be Disqualified with all of the resulting consequences including forfeiture of any medals, points and prizes.

10.9.2 As a condition of regaining eligibility after being found to have committed an EAD Rule violation, the Person Responsible and/or member of the Support Personnel must first repay all prize money forfeited under this Article and any other fines and/or costs attributed to the violation which have been ordered by the FEI Tribunal or otherwise accepted by the Person Responsible.

10.10 Commencement of Ineligibility Period

10.10.1 Except as provided below, the period of Ineligibility imposed on any Person or Horse shall start on the date of the Decision providing for Ineligibility or if the hearing is waived or there is no hearing, on the date Ineligibility is accepted or otherwise imposed or any other date specified by the FEI Tribunal in its Decision.
10.10.2 Delays Not Attributable to the Person Responsible or member of the Support Personnel

Where there have been substantial delays in the hearing process or other aspects of Doping Control not attributable to the Person Responsible and/or member of the Support Personnel alleged to have committed the EAD Rule violation, the Hearing Panel may start the period of Ineligibility at an earlier date commencing as early as the date of Sample collection or the date on which another EAD Rule violation last occurred. All competitive results achieved during the period of Ineligibility including retroactive Ineligibility shall be Disqualified.

10.10.3 Timely Admission

Where the Person Responsible and/or member of the Support Personnel (where applicable) promptly (which, for the Person Responsible, in all circumstances, means before the Person Responsible competes again) admits the EAD Rule violation after being confronted with the EAD Rule violation by the FEI, the period of Ineligibility may start as early as the date of Sample collection or the date on which another EAD Rule violation last occurred. In each case however where this Article is applied, the Person who committed the EAD Rule violation shall serve at least one-half of the period of Ineligibility going forward from the date Ineligibility is imposed or accepted.

This Article shall not apply where the period of Ineligibility has already been reduced under Article 10.6.3.

10.10.4 Credit for Provisional Suspension or Period of Ineligibility Served.

If a Provisional Suspension is imposed and respected by the Person Responsible and/or member of the Support Personnel, or Horse, then a credit shall be received for such period of Provisional Suspension against any period of Ineligibility which may ultimately be imposed as determined by the FEI Tribunal. If a period of Ineligibility is served pursuant to a decision that is subsequently appealed, then the Person Responsible and/or member of the Support Personnel and/or Horse shall receive a credit for such period of Ineligibility served against any period of Ineligibility which may ultimately be imposed on appeal.

10.10.5 If a Person Responsible and/or member of the Support Personnel voluntarily accepts a Provisional Suspension in writing for himself, herself or the Horse, and thereafter refrains from participating in equestrian activities, such Person or Horse shall receive a credit for such period of voluntary Provisional Suspension against any period of Ineligibility which may ultimately be imposed. A copy of the voluntary Provisional Suspension shall be provided promptly to each party entitled to receive Notice of an asserted EAD Rule violation. If a Provisional Suspension is voluntarily accepted, it can only be lifted by Decision of the FEI Tribunal.

10.10.6 No credit against a period of Ineligibility shall be given for any time period before the effective date of the Provisional Suspension or voluntary Provisional Suspension regardless of whether the Person alleged to have
committed the *EAD Rule* violation elected not to compete or was suspended by his team.

### 10.11 Status During Ineligibility

#### 10.11.1 Prohibition Against Participation during Ineligibility

No *Horse*, *Person Responsible* and/or member of the *Support Personnel* who has been declared *Ineligible* may, during the period of *Ineligibility*, participate in any capacity at an *Event*, or in a *Competition* or activity that is authorised or organised by the *FEI* or any *National Federation* or be present at an *Event* (other than as a spectator) that is authorised or organised by the *FEI* or any *National Federation*, or participate in any capacity at an *Event* or in a *Competition* authorised or organised by any international or national-level *Event* organisation or any elite or national-level sporting activity funded by a governmental agency. In addition, for any *EAD Rule* violation, some or all of sport-related financial support or other sport-related benefits received by such *Person Responsible* and/or *Support Personnel* may be withheld by the *FEI* and/or its *National Federations*. A *Horse* subject to a period of *Ineligibility* shall remain subject to *Testing*.

In addition, any *Person Responsible* and/or member of the *Support Personnel* or *Horse* subject to *Ineligibility* under Article 10 may also be banned from any venues where *FEI* competitions are taking place, whether or not the *Person Responsible* or member of the *Support Personnel* is registered with the *FEI*.

#### 10.11.2 Return to Training

As an exception to Article 10.11.1, a *Person Responsible* may return to train with a team or to use the facilities of a club or other member organization of the *FEI’s member organization* during the shorter of: (1) the last two months of the *Person Responsible’s* period of *Ineligibility*, or (2) the last one-quarter of the period of *Ineligibility* imposed.

#### 10.11.3 Violation of the Prohibition of Participation During Ineligibility

Where a *Person Responsible* and/or member of the *Support Personnel* who has been declared *Ineligible* or whose *Horse* has been declared *Ineligible* violates the prohibition against participation or attendance during *Ineligibility* described in Article 10.11.1 above, the results of any such participation shall be *Disqualified* and a new period of *Ineligibility* equal in length up to the original period of *Ineligibility* shall be added to the end of the original period of *Ineligibility*. The new period of *Ineligibility* may be adjusted based on the *Person Responsible* and/or member of the *Support Personnel’s* degree of Fault or other circumstances of the case. In addition, further sanctions may be imposed if appropriate. The determination of whether any *Person* has violated the prohibition against participation or attendance, and whether an adjustment shall be made by the *FEI Tribunal*. This decision may be appealed under Article 12.
ARTICLE 11  CONSEQUENCES TO TEAMS

11.1 Unless otherwise provided in the FEI Regulations for Equestrian Events at the Olympic or Paralympic Games, the Consequences to teams set forth below will apply.

11.1.1 At the Olympic Games, Paralympic Games, FEI World Equestrian Games: If a member of a team is found to have committed a violation of these EAD Rules during an Event, the results of the Person Responsible will be Disqualified in all Competitions and the entire team Disqualified.

11.1.2 At all other Events than those listed above: If a member of a team is found to have committed a violation of these EAD Rules during an Event where a team ranking is based on the addition of individual results, the results of the Person Responsible may be Disqualified in all Competitions and will be subtracted from the team result, to be replaced with the results of the next applicable team member. If by removing the Person Responsible's results from the team results, the number of Athletes counting for the team is less than the required number, the team shall be eliminated from the ranking.

11.2 Notwithstanding the above, for all Events, including but not limited to the Olympic and Paralympic Games, exceptional circumstances may be considered.

ARTICLE 12  APPEALS

12.1 Decisions Subject to Appeal

Decisions made under these EAD Rules may be appealed as set forth below in Article 12.2 through 12.3. Such Decisions shall remain in effect while under appeal unless the appellate body orders otherwise.

12.1.1 Scope of Review Not Limited

The scope of review on appeal includes all issues relevant to the matter and is expressly not limited to the issues or scope of review before the initial decision maker.

12.1.2 CAS Shall Not Defer to the Findings Being Appealed

In making its decision, CAS need not give deference to the discretion exercised by the body whose decision is being appealed.

12.2 Appeals from Decisions Regarding EAD Rule Violations, Consequences, and Provisional Suspensions

The following Decisions may be appealed exclusively as provided in this Article 12.2: (a) a Decision that an EAD Rule violation was committed; (b) a Decision imposing consequences for an EAD Rule violation; (c) a Decision that no EAD Rule violation was committed; (d) a Decision that an EAD Rule violation proceeding cannot go forward for procedural reasons (including, for
example, exceeding the Statute of Limitations); (e) a Decision under Article 10.11.3 (Violation of the Prohibition of Participation during Ineligibility); (f) a Decision that the FEI or a National Federation lacks jurisdiction to rule on an alleged EAD Rule violation or its consequences; (g) a Decision by any National Federation not to bring forward an Adverse Analytical Finding or an Atypical Finding as an anti-doping violation, or a Decision not to go forward with an anti-doping violation; and (h) a Decision to impose a Provisional Suspension as a result of a Preliminary Hearing or otherwise, in violation of Article 7.4; the only Person that may appeal from a Provisional Suspension is the FEI or the Person upon whom or upon whose Horse the Provisional Suspension is imposed.

12.2.1 In cases arising from participation in an International Event or in cases involving FEI-registered Horses, the Decision may be appealed exclusively to CAS in accordance with the provisions applicable before CAS.

12.2.2 In cases under Article 12.2.1, the following parties shall have the right to appeal to CAS: (a) the Person Responsible and/or member of the Support Personnel who is the subject of the Decision being appealed, or the Horse Owner, where its Horse is subject to Provisional Suspension or Ineligibility; (b) the other party to the case in which the Decision was rendered; (c) the FEI; (d) the National Federation of the Person who is the subject of the Decision being appealed; and (e) the International Olympic Committee or International Paralympic Committee, as applicable, where the Decision may have an effect in relation to the Olympic Games or Paralympic Games, including Decisions affecting eligibility for the Olympic Games or Paralympic Games.

12.2.3 Cross Appeals and other Subsequent Appeals Allowed

Cross appeals and other subsequent appeals by any respondent named in cases brought to CAS under the Code are specifically permitted. Any party with a right to appeal under this Article 12 must file a cross appeal or subsequent appeal at the latest with the party's answer.

12.3 Time for Filing Appeals

The time to file an appeal to CAS shall be twenty one days from the date of Receipt of the Hearing Panel Decision by the appealing party. The above notwithstanding, the following shall apply in connection with appeals filed by a party entitled to appeal but which was not a party to the proceedings having led to the Decision subject to appeal:

a) Within ten (10) days from Notice of the Decision, such party/ies shall have the right to request from the Hearing Panel having issued the Decision a copy of the file on which it relied; a failure to make such request shall however not preclude such party from appealing to CAS within the time period set forth above; and

b) If such a request is made within the ten (10) day period, then the party making such request shall have twenty one days from receipt of the file to appeal to CAS.
ARTICLE 13  APPLICATION, REPORTING AND RECOGNITION

13.1 Application of FEI EAD Rules

For FEI Disciplines only, all National Federations shall specifically incorporate Articles 2, 3, 4, and 8.2 of these EAD Rules into their anti-doping regulations without substantive change by January 1, 2016 and enforce them against their members, unless doing so would contravene any applicable national law. With regards to the other Articles of these EAD Rules, National Federations, to the extent they do not wish to incorporate them, shall adopt corresponding provisions which embody similar concepts and principles, especially with respect to Article 10. Nothing in these EAD Rules shall be interpreted to prevent a National Federation from conducting out-of-competition testing on national Horses as part of its national Doping Control.

13.2 Statistical Reporting

National Federations shall report to the FEI at the end of every year aggregated and anonymous results of all Doping Controls within their jurisdiction. The FEI may periodically publish Testing data received from National Federations as well as comparable data from Testing under the FEI's jurisdiction.

13.3 Public Disclosure

13.3.1 Neither the FEI or its National Federation shall publicly identify Horses or Persons Responsible whose Horses’ Samples have resulted in Adverse Analytical Findings, or Persons Responsible and/or members of the Support Personnel who were alleged to have otherwise violated these Rules, until the earlier of completion of the administrative review and Notification described in Articles 7.1.2 and 7.1.4 above or the start of the Provisional Suspension of the Person alleged to have violated the EAD Rule. Once a violation of these EAD Rules has been established, it shall be publicly reported in an expeditious manner via the FEI Case Status Table at www.fei.org unless another mechanism for publicly reporting the information is warranted at the discretion of the FEI. If the Person Responsible and/or member of the Support Personnel or the National Federation of any such Person makes information concerning an EAD Rule violation or alleged EAD Rule violation public prior to release of this information on the Case Status Table, the FEI may comment on such public information or otherwise publicly report the matter.

13.3.2 In any case where it is determined, after a hearing or appeal, that the Person Responsible and/or member of the Support Personnel did not commit an EAD Rule violation, the Decision may be Publicly Disclosed only with the consent of the Person who is the subject of the Decision. The FEI shall use reasonable efforts to obtain such consent, and if consent is obtained, shall Publicly Disclose the Decision in its entirety or in such redacted form as such Person and FEI may jointly approve.

13.3.3 Publication shall be accomplished at a minimum by placing the required information on the FEI's Web site or publishing it through other
means and leaving the information up for the longer of one month or the period of Ineligibility.

13.3.4 Neither the FEI, any National Federation, any FEI approved Laboratory, or any official of any of the above, shall publicly comment on the specific facts of a pending case (as opposed to a general description of process and science), except in response to public comments attributed to the Person Responsible and/or member of the Support Personnel or their representatives.

13.3.5 The mandatory Public Reporting required in Article 13.3.2 shall not be required where the Person Responsible and/or member of the Support Personnel who has been found to have committed an anti-doping rule violation is a Minor. Any optional Public Reporting in a case involving a Minor shall be proportionate to the facts and circumstances of the case.

13.4 Recognition of Decisions by National Federations

Any Decision of the FEI regarding a violation of these EAD Rules shall be recognised and enforced by all National Federations (including with respect to National Events) and National Federations shall take all necessary action to implement any and all ramifications relating to such Decisions. Failure to do so may be considered a violation of these EAD Rules and the FEI Statutes.

ARTICLE 14 STATUTE OF LIMITATIONS

No action may be commenced under these EAD Rules against a Person Responsible and/or member of the Support Personnel for an EAD Rule violation unless he or she has been notified of the EAD Rule Violation as provided in Article 7, or notification has been reasonably attempted, ten years from the date the violation is asserted to have occurred.

ARTICLE 15 AMENDMENT AND INTERPRETATION OF EAD RULES

15.1 These EAD Rules may be amended from time to time by the FEI in accordance with the FEI Statutes and General Regulations.

15.2 Except as provided in Article 15.5 EAD Rules, these EAD Rules shall be interpreted as an independent and autonomous text and not by reference to existing law or statutes. Nothing herein shall be interpreted to supplant the applicability of national laws to national events.

15.3 The headings used for the various parts and Articles of these EAD Rules are for convenience only and shall not be deemed part of the substance of these EAD Rules or to affect in any way the language of the provisions to which they refer.

15.4 The Introduction, Appendix 1 Definitions, the Equine Prohibited Substances List, and the FEI List of Approved Laboratories, shall all be considered integral parts of these EAD Rules.

15.5 These EAD Rules have been adopted pursuant to the FEI Statutes and General Regulations and shall be interpreted, where applicable, in a manner
that is consistent with applicable provisions of these Statutes and General Regulations as well as other FEI rules and regulations including but not limited to the Veterinary Regulations, the Internal Regulations of the FEI Tribunal, the Procedural Rules of the FEI Tribunal, the FEI Standard for Laboratories and the various FEI Sport Rules. In the event of conflict with the Statutes or the General Regulations, the Statutes and the General Regulations shall apply, subject however, to the application by the FEI Tribunal of the legal principle of *lex specialis derogat legi generali* which provides that a specific provision should govern over a general provision. In the event of conflict with any other rules or regulations, these EAD Rules shall apply.

**15.6** The time limits fixed under the present EAD Rules shall begin from the day after which Notification by the FEI is received. Official holidays and non-working days are included in the calculation of time limits. The time limits fixed under the present EAD Rules are respected if the communications by the parties are sent before midnight on the last day on which such time limits expire. If the last day of the time limit is an official holiday or a non-business day in the country where the Notification has been made, the time limit shall expire at the end of the first subsequent business day.

**ARTICLE 16 TRANSITIONAL PROVISIONS**

**16.1 Application to Decisions Rendered Prior to the 2010 EAD Rules**

The 2016 EAD Rules shall have no application to any anti-doping rule violation case where a Final Decision finding an anti-doping rule violation has been rendered and the period of Ineligibility has expired.

They shall not apply retroactively to matters pending before the Effective Date; provided, however, that:

**16.1.1** EAD Rule violations taking place prior to the Effective Date count as "first violations" or "second violations" for purposes of determining sanctions under Article 10 for violations taking place after the Effective Date.

**16.1.2** The retrospective periods in which prior violations can be considered for purposes of multiple violations under Article 10.8.5 and the statute of limitations set forth in Article 14 are procedural rules and should be applied retroactively; provided, however, that Article 14 shall only be applied retroactively if the statute of limitations period has not already expired by the Effective Date. Otherwise, with respect to any EAD Rule violation case which is pending as of the Effective Date and any anti-doping rule violation case brought after the Effective Date based on an anti-doping rule violation which occurred prior to the Effective Date, the case shall be governed by the substantive anti-doping rules in effect at the time the alleged anti-doping rule violation occurred unless the FEI Tribunal or national arbitral panel deciding the case determines the principle of "lex mitior" appropriately applies under the circumstances of the case.
16.1.3 For purposes of assessing the period of *Ineligibility* for a second violation under Article 10.8.1, where the sanction for the first violation was determined based on rules in force prior to the Effective Date, the period of *Ineligibility* which would have been assessed for that first violation had these Anti-Doping Rules been applicable, shall be applied.
FEI Medication Code & Rationale for the ECM Rules

1. These ECM Rules have been adopted in recognition of the following fundamental imperatives of equestrian sport:

   • A central and distinctive feature of equestrian sport is that it involves a partnership between two types of athlete, one human and one equine. One of those partners is unable to speak for itself. It is therefore the FEI’s responsibility to speak on its behalf, and to ensure that, at every stage of the governance, regulation, administration and practice of the sport, the welfare of the Horse is paramount.

   • This includes regulating the administration of Controlled Medication Substances to Horses involved in the sport to ensure Horse welfare and the highest levels of professionalism.

   • In particular, all treatments must be given in the best health and welfare interests of the Horse, and not for any other reasons.

   • No Controlled Medication Substance shall be given to any Horse during or close to an Event unless the appropriate FEI guidelines for medication authorisation have been followed.

   • Every treatment must be fully justifiable based on the medical condition of the Horse receiving the treatment.

   • Horses that cannot compete as a result of injury or disease must be given appropriate veterinary treatment and rest (or recovery period). Persons Responsible and their Support Personnel must obtain advice from a Permitted Treating Veterinarian and only administer treatments prescribed based on the objective clinical opinion of the Permitted Treating Veterinarian.

   • A complete and accurate record of all treatments during or close to an Event should be maintained in the form of a FEI Medication Logbook as foreseen under the VRs.

2. These ECM Rules are to be interpreted and applied (including where an issue arises that is not expressly provided for in these ECM Rules) by reference to the need to follow the FEI Medication Code and protect and advance the fundamental imperatives described above. This purposive interpretation and application will take precedence over any strict legal or technical interpretations that may otherwise be proposed.
ARTICLE 1  DEFINITION OF A CONTROLLED MEDICATION VIOLATION

A Controlled Medication violation is defined as the occurrence of one or more of the ECM Rule violations set forth in Article 2.1 through Article 2.5 of these ECM Rules.

ARTICLE 2  CONTROLLED MEDICATION RULE VIOLATIONS

The purpose of Article 2 is to specify the circumstances and conduct which constitute ECM rule violations. Hearings in ECM cases will proceed based on the assertion that one or more of these specific rules have been violated.

Persons Responsible and/or their Support Personnel shall be responsible for knowing what constitutes an ECM Rule violation and the substances and methods which have been included on the Equine Prohibited Substances List and identified as Controlled Medication Substances and Controlled Medication Methods.

Where Controlled Medication Substances or Controlled Medication Methods are involved, the following shall constitute ECM Rule violations:

2.1  The presence of a Controlled Medication Substance and/or its Metabolites or Markers in a Horse’s Sample.

2.1.1 It is each Person Responsible’s personal duty to ensure that no Controlled Medication Substance is present in the Horse body during an Event without a valid Veterinary Form. Persons Responsible are responsible for any Controlled Medication Substance found to be present in their Horse’s Samples, even though their Support Personnel will be considered additionally responsible under Articles 2.2 – 2.5 ECM Rules where the circumstances so warrant. It is not necessary that intent, Fault, negligence or knowing Use be demonstrated in order to establish a Rule violation under Article 2.1.

2.1.2 Sufficient proof of a Rule violation under Article 2.1 is established by any of the following where there is no valid Veterinary Form: (i) presence of a Controlled Medication Substance and/or its Metabolites or Markers in the Horse’s A Sample when the Person Responsible waives analysis of the B Sample and the B Sample is not analysed; (ii) or, where the Horse’s B Sample is analysed and the analysis of the Horse’s B Sample confirms the presence of the Controlled Medication Substance and/or its Metabolites or Markers found in the Horse’s A Sample during an Event. An Adverse Analytical Finding may be established by a positive blood or urine Sample.

2.1.3 Excepting those Controlled Medication Substances for which a quantitative threshold is specifically identified in the Equine Prohibited Substances List or where a valid Veterinary Form has been submitted, the presence of any quantity of a Controlled Medication Substance and/or its Metabolites or Markers in a Horse’s Sample during an Event shall constitute an ECM Rule violation.

2.1.4 As an exception to the general rule of Article 2.1, the Equine Prohibited Substances List or the FEI Standard for Laboratories may establish special criteria for the evaluation of Controlled Medication Substances that can also be produced endogenously.
2.2 Use or Attempted Use of a Controlled Medication Substance or a Controlled Medication Method.

2.2.1 It is each Person Responsible’s personal duty, along with members of their Support Personnel, to ensure that no Controlled Medication Substance enters into the Horse’s body and that no Controlled Medication Method is Used during an Event without a valid Veterinary Form. Accordingly, it is not necessary that intent, fault, negligence or knowing Use on the part of the Person Responsible, and/or member of his Support Personnel (where applicable), be demonstrated in order to establish a Rule violation for Use of a Controlled Medication Substance or a Controlled Medication Method. However, in accordance with the definition of Attempt, it is necessary to show intent in order to establish an ECM Rule violation for Attempted Use of a Controlled Medication Substance or a Controlled Medication Method.

2.2.2 The success or failure of the Use or Attempted Use of a Controlled Medication Substance or a Controlled Medication Method is not material. It is sufficient that the Controlled Medication Substance or Controlled Medication Method was Used or Attempted to be Used during an Event without a valid Veterinary Form for an ECM Rule violation to be committed.

2.3 Tampering, or Attempted Tampering with any part of Medication Control that is not otherwise a violation of the ECM Rules.

2.4 Complicity

Assisting, encouraging, aiding, abetting, covering up or any other type of complicity involving an ECM Rule violation or any Attempted ECM Rule violation.

2.5 Administration or Attempted Administration of a Controlled Medication Substance.

ARTICLE 3 PROOF OF ECM RULE VIOLATIONS

3.1 Burdens and Standards of Proof

The FEI shall have the burden of establishing that an ECM Rule violation has occurred. The standard of proof shall be whether the FEI has established an ECM Rule violation on the balance of probabilities. Where these ECM Rules place the burden of proof upon the Person Responsible and/or member of his Support Personnel to rebut a presumption or establish specified facts or circumstances, the standard of proof shall also be by a balance of probability, except where a different standard of proof is specifically identified.

3.2 Methods of Establishing Facts and Presumptions

Facts related to ECM Rule violations may be established by any reliable means, including admissions. The following rules of proof shall be applicable in Controlled Medication cases brought under these ECM Rules:

3.2.1 FEI-approved Laboratories are presumed to have conducted Sample analysis and custodial procedures in accordance with the FEI Standard for
Laboratories. The Person Responsible and/or member of the Support Personnel who is alleged to have committed the ECM Rule violation may rebut this presumption by establishing by a balance of probability that a departure from the FEI Standard for Laboratories occurred which could reasonably have caused the Adverse Analytical Finding.

If the preceding presumption is rebutted by showing that a departure from the FEI Standard for Laboratories occurred which could reasonably have caused the Adverse Analytical Finding, then the FEI shall have the burden to establish that such departure did not cause the Adverse Analytical Finding.

3.2.3 Departures from another FEI standard, FEI Rule or Regulation, FEI Manual or policy which did not by a balance of probability cause an Adverse Analytical Finding or other Rule violation shall not invalidate such results. If the Person Responsible and/or member of the Support Personnel (where applicable) establishes, by a balance of probability, that a departure from another FEI standard, FEI Rule or Regulation, FEI Manual or policy could reasonably have caused the ECM Rule violation based on the Adverse Analytical Finding or other ECM Rule violation, then the FEI must prove that the departure did not cause the Adverse Analytical Finding or the factual basis for the ECM Rule violation.

3.2.4 The facts established by a Decision of a court or professional disciplinary tribunal of competent jurisdiction which is not the subject of a pending appeal shall be irrebuttable evidence against the Person Responsible and/or member of the Support Personnel to whom the Decision pertained with regards to the factual findings unless it can be established that the Decision violated principles of natural justice.

3.2.5 The Hearing Panel presiding over a case alleging an ECM Rule violation may draw an inference adverse to the Person Responsible and/or member of the Support Personnel (where applicable) who is asserted to have committed an ECM Rule violation based on the refusal, after a request made in a reasonable time in advance of the hearing, to appear at the hearing (either in person or telephonically as directed by the FEI Tribunal) in order to answer questions from the Hearing Panel or the FEI.

ARTICLE 4 THE EQUINE PROHIBITED SUBSTANCES LIST

4.1 Incorporation of the Equine Prohibited Substances List

These ECM Rules incorporate the Equine Prohibited Substances List (the “List”) which is published and revised by the FEI from time to time. The FEI will publish the current List in such a manner that it is available to its members and constituents, including, but not limited to, publication on the FEI website.

4.2 Review and Publication of Controlled Medication Substances and Controlled Medication Methods Identified on the List

The FEI may revise the List from time to time but at least once annually by posting the new list on the FEI website, or via such other appropriate channel, but such new list shall not go into effect any sooner than ninety (90) days
following its publication. Each new version of the List shall also be sent by email to National Federations and to National Head FEI Veterinarians at email addresses supplied by the National Federations and on file with the FEI. The List shall be published by the FEI at least once a year, with an opportunity for National Federation and stakeholder feedback. All Person Responsible and/or member of the Support Personnel shall be bound by the Prohibited List, and any revisions thereto, from the date they go into effect, without further formality. It is the responsibility of all Person Responsible and/or member of the Support Personnel to familiarize themselves with the most up-to-date version of the Prohibited List and all revisions thereto.

4.3 Substances and Methods included on the List

The FEI’s categorization of a substance or method on the List as a Controlled Medication Substance or Controlled Medication Method including any establishment of a threshold for a Controlled Medication Substance and/or the quantitative amount of such threshold shall be final and binding on all parties and shall not be subject to challenge by a Person Responsible, member of the Support Personnel, and/or any other Person on any basis.

4.4 Veterinary Form

Horses with documented medical conditions requiring the Use of a Controlled Medication Substance or a Controlled Medication Method during or prior to an Event must obtain permission for ongoing participation in accordance with the FEI Veterinary Regulations as specified therein.

4.4 Specified Substances

For purposes of the application of Article 10 and Article 7.4, Specified Substances shall be taken as meaning only those Prohibited Substances identified as Specified Substances on the Prohibited List.

ARTICLE 5 TESTING

5.1 Authority to Test

All Horses registered with the FEI or a National Federation, or otherwise present or competing at an International Event or National Event or Competition, shall be subject to In-Competition Testing (a) by the FEI or by any other Anti-Doping Organisation responsible for Testing at a Competition or Event in the case of International Events and (b) in the case of National Events, by the National Federation through which the Horse is registered, or by any other Anti-Doping Organisation responsible for Testing at a Competition or Event.

The FEI or its assignees or agents shall be exclusively responsible for Testing at International Events and no other body may conduct Testing at International Events without the FEI’s express written permission. Each National Federation or its assignees or agents shall be exclusively responsible for Testing at its National Events, and no other body may conduct Testing at
*National Events* without the *National Federation’s* express written permission. National Federations are responsible for Results Management arising from *Testing* at *National Events* but are obligated to promptly report any positive findings to the *FEI* that have been notified as anti-doping rule violations unless doing so would contravene national law.

5.2 **Responsibility for FEI Testing**

The *FEI* Veterinary Department shall be responsible for overseeing all *Testing* conducted by the *FEI*. *Testing* may be conducted by the *Testing Veterinarians, Veterinary Delegate,* and/or by other qualified persons at a given *Event* or at such other place as authorised by these *ECM Rules,* the *FEI* Veterinary Regulations, or as authorised in writing by the *FEI* Secretary General or his or her designee(s).

5.3 **Testing Standards**

*Testing* conducted by or on behalf of the *FEI* shall be in substantial conformity with the *Testing* procedures set forth in the *FEI* Veterinary Regulations in effect at the time of *Testing*.

5.4 **Selection of Horses to be Tested**

5.4.1 The *FEI* shall determine the number of *Tests* to be performed and on which *Horses* they shall be performed.

5.4.2 In addition to the selection procedures set forth in Article 5.4.1 above, the *Veterinary Commission/Veterinary Delegate/Testing Veterinarian* in cooperation with the Ground Jury at *International Events* may also select *Horses for Random Testing* and/or *Target Testing* in cooperation with the Ground Jury at *International Events*.

5.4.3. Each *National Federation* shall determine, within its jurisdiction, the number of *Tests* to be performed and on which *Horse* they shall be performed.

5.4.4. Nothing in these *Rules* shall be construed to limit where the *FEI* is authorised to conduct *Testing* on *Horses In-Competition.*

**ARTICLE 6 ANALYSIS OF SAMPLES**

*Samples* collected under these *Rules* and arising from *FEI Testing* are the property of the *FEI*. They shall be analysed in accordance with the following principles:

6.1 **Use of approved Laboratories**

These *ECM Rules* incorporate the *FEI* List of approved *Laboratories* which is published and revised by the *FEI* from time to time. The *FEI* shall send *Samples* for analysis only to these approved *Laboratories,* which are subject to the *FEI Standard for Laboratories.* The choice of *Laboratory* used for the *Sample* analysis of either or both the A and B Sample shall be determined
exclusively by the FEI. However, the Person Responsible may elect to have the B Sample analysed at a different Laboratory than the one which performed the A Sample analysis. If such an election is made, the FEI shall select the B Sample Laboratory from the FEI List of approved Laboratories and inform the Person Responsible accordingly.

6.2 Purpose of Collection and Analysis of Samples

Samples shall be analysed to detect Controlled Medication Substances and Controlled Medication Methods, all as set forth in the List. The FEI may also seek to detect other substances for research and monitoring purposes, as publicly announced by the FEI from time to time pursuant to a defined monitoring program. Samples may be collected and stored for future analysis.

6.3 Research on Samples

No Sample may be used for any purpose other than as described in Article 6.2, without the Person Responsible’s written consent. Those Samples used for purposes other than as set forth in Article 6.2 (for example research) following written consent from the Person Responsible shall have all means of identification removed from the Sample so it cannot be traced back to a particular Horse or Person Responsible. All Samples shall be destroyed pursuant to the guidelines set forth in the FEI Standard for Laboratories and in no event later than the lapse of the Statute Of Limitations in Article 14.

6.4 Standards for Sample Analysis and Reporting

Laboratories shall analyse Samples and report results in conformity with the FEI Standard for Laboratories.

6.5 Retesting Samples

A Sample may be reanalysed for the purposes of research pursuant to Article 6.3 at any time exclusively at the direction of the FEI. Nothing herein, however, shall prevent the FEI from conducting subsequent tests on a Sample pursuant to an alleged violation under Article 2.1. The retesting of Samples may lead to an ECM Rule violation only if the Sample was taken at the Olympic, Paralympic or World Equestrian Games and only if the Controlled Medication Substance or Controlled Medication Method was prohibited at the time the Sample was taken, all subject to Article 14.

6.6 Equestrian Community Integrity Unit

The Equestrian Community Integrity Unit (ECIU) shall have the power to conduct investigations arising from or relating to these ECM Rules in order to protect the integrity of the FEI and equestrian sport, as set forth in the FEI Statutes. The refusal of a Person Responsible or member of the Support Personnel to cooperate with the ECIU may result in an adverse inference being drawn against that Person in any related FEI Tribunal proceeding. If the Equestrian Community Integrity Unit determines that it has a good faith basis to pose questions relating to any investigation to a Person Responsible or member
of the Support Personnel and such Person refuses to answer such questions, that Person Responsible or member of the Support Personnel may be prohibited from participating in any FEI activities until such questions are answered to the satisfaction of the ECI. Any Person Responsible and/or member of the Support Personnel may file a Protest to the FEI Tribunal under Article 163 of the FEI General Regulations arguing that he has a good faith basis to refuse answering such questions to the satisfaction of the ECIU.

ARTICLE 7 RESULTS MANAGEMENT

7.1 Results Management for Tests arising out of FEI Testing or other ECM Rule violations

Results management for Tests arising out of FEI Testing or other ECM Rule violations shall proceed as set forth below:

7.1.1 The results of all Sample analyses must be sent exclusively to the FEI, in a report signed by an authorised representative of the Laboratory. All communications must be conducted in such a way that the results of the Sample analyses are confidential.

7.1.2 Upon receipt of an Adverse Analytical Finding, the FEI shall conduct a review to determine whether: (a) the Adverse Analytical Finding is consistent with a valid Veterinary Form that has been granted, or (b) if there is any apparent departure from the FEI Testing procedures of the FEI Veterinary Regulations, the FEI Standard for Laboratories or another FEI standard, FEI Rule or Regulation, FEI Manual or policy that caused the Adverse Analytical Finding.

7.1.3 If (i) the initial review under Article 7.1.2 reveals a valid Veterinary Form or departure from the Testing procedures of the FEI Veterinary Regulations or from the FEI Standard for Laboratories that caused the Adverse Analytical Finding, the entire test shall be considered negative, and/or (ii) upon the review, the FEI Decides not to bring forward the Adverse Analytical Finding, the FEI shall promptly Notify the Person Responsible and the Owner of the Horse (if applicable).

7.1.4 If the review of an Adverse Analytical Finding under Article 7.1 does not reveal an apparent departure from the Testing procedures of the FEI Veterinary Regulations, the FEI Standard for Laboratories or other FEI standard, FEI Rule or Regulation, FEI Manual or policy that caused the Adverse Analytical Finding, the FEI shall promptly Notify the Person Responsible and the Owner of the Horse (if applicable) of:

(a) the Adverse Analytical Finding;

(b) the ECM Rule violated;

(c) the Person Responsible’s and the Owner of the Horse’s (if applicable) right to promptly request the analysis of the B Sample, or, failing such request, that the B Sample analysis may be deemed waived;
(d) the opportunity for the Person Responsible and the Owner of the Horse (if applicable) to elect to have the B Sample analysed at a different Laboratory than the one which performed the A Sample analysis, such Laboratory to be chosen by the FEI, and the opportunity to send a representative (witness) to be present for the B Sample analysis within the time period specified in the FEI Standard for Laboratories unless allowing such representative or witness presents a threat to the integrity of the analysis process. Where both the Person Responsible and the Owner have elected to have the B Sample analysed but one of them has elected to have the B Sample analysed at a different laboratory than the one which performed the A Sample analysis and the other one has elected to have the B Sample analysed at the same laboratory as the one which performed the A Sample analysis, it shall be for the FEI to decide the question taking into account all relevant circumstances;

(e) the right of the Person Responsible and the Owner of the Horse (if applicable) to request copies of the A and B Sample (if applicable) Laboratory Documentation Package which includes information as specified in the FEI Standard for Laboratories.

(f) the right of the Person Responsible and/or the FEI to request to the FEI Tribunal that Article 9.1 (Automatic Disqualification) be promptly applied where the B Sample Analysis confirms the A Sample Analysis or where the right to request the B Sample Analysis is waived in accordance with Article 7.6.2;

(g) the Person Responsible’s and the Owner of the Horse’s right to request the hearing or, failing such request within the deadline specified in the notification, that the hearing may be deemed waived;

(h) where applicable, the availability of the Administrative Procedure described in Article 8.3;

(i) the opportunity to provide a written explanation about the overall circumstances of the case or to dispute (within a specific deadline indicated in the notification) the assertion that an ECM rule violation has occurred;

(j) the opportunity to make an agreement with the FEI about the Consequences that are mandated by these ECM Rules or (where some discretion as to Consequences exists under these Controlled Rules) that have been offered by the FEI;

(k) the imposition of a mandatory Provisional Suspension in accordance with Article 7.4.1;

(l) the imposition of an optional Provisional Suspension where the FEI Tribunal decides to impose it in accordance with Article 7.4.2;

(m) the opportunity to voluntarily accept a Provisional Suspension pending the resolution of the matter, in all cases where a Provisional Suspension has not been imposed;
(n) the opportunity to promptly admit the ECM Rule violation and consequently request the early commencement of the period of Ineligibility in accordance with Article 10.10.3; and

(o) the opportunity to cooperate and provide substantial assistance in discovering or establishing an ECM rule violation.

7.1.5 Pursuant to Article 7.1.4 (d) above, within seven (7) days of receipt of the duly executed Confirmatory Analysis Request Form (B Sample), the FEI will propose possible dates for such analysis. The Person Responsible and the Owner of the Horse (if applicable) may accept the A Sample analytical results by waiving the right to a B Sample analysis. The FEI may nonetheless elect at its discretion to proceed with the B Sample analysis. In such case, the B Sample analysis shall only be used to confirm the A Sample Adverse Analytical Finding. The Person Responsible and the Owner of the Horse (if applicable) is deemed to have waived his right to a B Sample analysis if he does not submit the Confirmatory Analysis Request Form within the stipulated time-limit in the Notification.

7.1.6 In addition to the Person Responsible and the Owner of the Horse (if applicable) and his/their representative (witness), a representative of the National Federation(s) involved as well as a representative of the FEI shall also be allowed to be present for the B Sample analysis. If notice under Article 7.1.3 has not been carried out through the National Federation, the National Federation shall be informed in a timely manner by the FEI of the Adverse Analytical Finding and its right to attend the B Sample analysis.

7.1.7 If the B Sample proves negative, then the entire test shall be considered negative. The FEI shall be informed of the results confidentially and shall notify the Person Responsible and the Owner of the Horse (if applicable).

7.1.8 If the B Sample analysis confirms the A Sample analysis, the FEI shall be informed of the results confidentially and shall Notify the Person Responsible and the Owner of the Horse (if applicable).

7.1.9 The FEI and/or the Equestrian Community Integrity Unit may conduct any follow-up investigation as may be required. Upon completion of such follow-up investigation, if any, the FEI shall promptly notify the Person Responsible’s National Federation of the results of the follow-up investigation.

7.1.10 For the avoidance of doubt, an Adverse Analytical Finding confirmed by the B Sample analysis may result from blood or urine Samples, or any combination thereof (for example, a confirmatory B Sample Analysis is valid if performed on a blood sample, even if the A Sample Adverse Analytical Finding arose from a urine Test, and vice-versa). In addition, and also for the avoidance of doubt, where the A Sample is positive for a Threshold Controlled Medication Substance, as it is quantitatively above the threshold level set for the Controlled Medication Substance, the B Sample shall be deemed to confirm the A Sample so long as the level of the B Sample is also quantitatively above the threshold, even if the B Sample level varies quantitatively from the A Sample level.
7.1.11 Where appropriate, the members of the Support Personnel, including the Owner, shall receive Notification of the ECM Rule violation and all relevant corresponding documents.

7.2 Review of Atypical Findings

As provided in the FEI Standard for Laboratories, in some circumstances Laboratories are directed to report the presence of Controlled Medication Substances, which may also be produced endogenously, as Atypical Findings subject to further investigation. Upon receipt of an A Sample Atypical Finding, the FEI shall conduct a review to determine whether there is any apparent departure from the Testing procedures, the FEI Standard for Laboratories or another FEI standard, FEI Rule or Regulation, FEI Manual or policy that caused the Atypical Finding. If that review does not reveal any departure that caused the Atypical Finding, the FEI shall conduct the required investigation. After the investigation is completed, the Person Responsible, and the Owner of the Horse (if applicable) and his National Federation shall be notified whether or not the Atypical Finding will be brought forward as an Adverse Analytical Finding. The Person Responsible’s National Federation shall be notified as provided in Article 7.1.

7.2.1 The FEI will not provide Notice of an Atypical Finding until it has completed its investigation and Decided whether it will bring the Atypical Finding forward as an Adverse Analytical Finding. However, if the FEI determines that the B Sample should be analysed prior to the conclusion of the investigation under Article 7.2, the FEI may conduct the B Sample analysis after supplying the Person Responsible and the Owner of the Horse (if applicable) with such Notice including a description of the Atypical Finding and the information described in Article 7.1.4 (b)-(e).

7.3 Review of Other ECM Rule Violations

For apparent ECM Rule violations that do not involve Adverse Analytical Findings, the FEI and/or the Equestrian Community Integrity Unit may conduct any necessary follow-up investigation and at such time as it is satisfied that an ECM Rule violation has occurred, it shall then promptly Notify the Person Responsible, the Owner of the Horse (if applicable) and/or member of the Support Personnel (where applicable) of the ECM Rule which appears to have been violated and the basis of the violation.

7.4 Provisional Suspensions

7.4.1 The FEI shall provisionally suspend a Person Responsible, member of the Support Personnel, and/or the Person Responsible’s Horse prior to the opportunity for a full hearing based on: (a) an admission that an ECM Rule violation has taken place (for the avoidance of doubt, an admission by any Person can only be used to provisionally suspend that Person); or (b) all of the following elements: (i) an Adverse Analytical Finding for two Controlled Medication Substances from the A Sample or A and B Samples provided that neither of the Controlled Medication Substances is a Specified Substance; (ii) the review described in Article 7.1.2; and (iii) the Notification described in Article 7.1.4 above. If a Provisional Suspension is imposed, either the hearing in accordance with Article 8 shall be advanced to a date which avoids
substantial prejudice to the Person Responsible alleged to have committed the ECM Rule violation, or such Person Responsible shall be given an opportunity for a Preliminary Hearing either on a timely basis after imposition of the Provisional Suspension or before imposition of the Provisional Suspension in order to show cause why the Provisional Suspension should not be imposed (or should be lifted). Where a Horse is provisionally suspended, the Owner shall also have the right to request a Preliminary Hearing.

7.4.2 The FEI may provisionally suspend a Person Responsible, member of the Support Personnel, and/or the Person Responsible's Horse prior to the opportunity for a full hearing if (a) the Person Responsible, member of the Support Personnel or Horse has a pending EAD or ECM Rule violation or previously violated the EAD Rules in the last ten (10) years or the ECM Rules in the last four (4) years or (b) based on (i) an Adverse Analytical Finding for two Controlled Medication Substances from the A Sample or A and B Samples and at least one of the Controlled Medication Substances is a Specified Substance; (ii) the review described in Article 7.1.2; and (iii) the Notification described in Article 7.1.4 above.

7.4.3 The FEI may provisionally suspend a Person Responsible, member of the Support Personnel, and/or the Person Responsible's Horse prior to the opportunity for a full hearing based on evidence that a violation of these ECM Rules is highly likely to have been committed by the respective Person.

7.4.4 The Provisional Suspension shall be maintained unless the Person requesting the lifting of the Provisional Suspension establishes to the comfortable satisfaction of the FEI Tribunal that:

(i) the allegation that an ECM Rule violation has been committed has no reasonable prospect of being upheld, e.g., because of a material defect in the evidence on which the allegation is based; or

(ii) the Person can demonstrate that the evidence will show that he bears No Fault or No Negligence for the ECM Rule violation that is alleged to have been committed, so that any period of Ineligibility that might otherwise be imposed for such offence is likely to be completely eliminated by application of Article 10.4 below or that 10.5 below applies and the Person can demonstrate that the evidence will show that he bears No Significant Fault or Negligence and that he has already been provisionally suspended for a period of time that warrants the lifting of the Provisional Suspension pending the final Decision of the FEI Tribunal; or

(iii) exceptional circumstances exist that make it clearly unfair, in all of the circumstances of the case, to impose a Provisional Suspension prior to final hearing of the FEI Tribunal. This ground is to be construed narrowly, and applied only in truly exceptional circumstances. For example, the fact that the Provisional Suspension would prevent the Person or Horse competing in a particular Competition or Event shall not qualify as exceptional circumstances for these purposes.

The FEI may also request the lifting of the Provisional Suspension.
7.4.5 If a Provisional Suspension is imposed based on an A Sample Adverse Analytical Finding and a subsequent B Sample analysis (if requested) does not confirm the A Sample analysis, then the Person(s) alleged to have committed the Rule violation and his member of the Support Personnel, and/or Horse shall not be subject to any further Provisional Suspension on account of a violation of Article 2.1 (Presence of a Controlled Medication Substance and/or its Metabolites or Markers). In circumstances where the Person Responsible and/or his Horse has been removed from a Competition and/or Event based on a violation of Article 2.1 and the subsequent B Sample analysis does not confirm the A Sample finding, if it is still possible for the Person Responsible and his Horse to be re-entered without otherwise affecting the Competition or Event, the Person Responsible and his Horse may continue to take part in the Competition and/or Event.

7.4.6 After the imposition of a Provisional Suspension and prior to a final hearing, the Person Responsible and/or member of the Support Personnel (including Owner) can petition the FEI Tribunal for another Preliminary Hearing provided that new evidence exists that, if known at the time of the earlier Preliminary Hearing, may have satisfied the requirements of Article 7.4.4 above and may have lead to the lifting of the Provisional Suspension. Such petition must be made in writing to the FEI Tribunal and copied to the FEI Legal Department and must clearly establish the existence of such new evidence meeting this criterion. If the request for another Preliminary Hearing is granted by the FEI Tribunal, and provided that a Preliminary Hearing had already taken place at an earlier stage, the same FEI Tribunal member who presided over the prior Preliminary Hearing will Decide the new Preliminary Hearing request, unless exceptional circumstances prevent it from doing so, in which case another FEI Tribunal member will be appointed and will conduct the new Preliminary Hearing. If another Preliminary Hearing is granted after the Hearing Panel has been constituted, any member of the Hearing Panel may conduct the Preliminary Hearing. Preliminary Hearing Decisions may be issued by the FEI Tribunal without reasons.

7.4.7 During a period of Provisional Suspension, no Person Responsible and/or member of the Support Personnel who themselves are provisionally suspended, or a Horse that is provisionally suspended, may participate in any capacity at an Event or in a Competition or activity, or being present at an Event (other than as spectator) that is authorised or organised by the FEI or any National Federation or in Competitions authorised or organised by any International - or national-level - Event organisation.

7.5 Retirement from Sport

If a Person Responsible and/or member of the Support Personnel retires while a Results Management process is underway, the FEI retains jurisdiction to complete its Results Management process. If a Person Responsible and/or member of the Support Personnel retires before any Results Management process has begun, the FEI similarly has jurisdiction to conduct Results Management.
7.6 Resolution Without a Hearing

7.6.1 Agreement between Parties

In cases where the Administrative Procedure, as set out in Article 8.3 below, is not available, at any time during the results management process the Person Responsible and/or member of the Support Personnel and/or Owner against whom an anti-doping rule violation is asserted may admit that violation at any time, waive a hearing and may agree with the FEI on the Consequences that are mandated by these ECM Rules or (where some discretion as to Consequences exists under these ECM Rules) that have been offered by the FEI. The agreement shall be submitted to the FEI Tribunal for approval and, where approved by the FEI Tribunal, the final agreement shall state the full reasons for any period of Ineligibility agreed, including (if applicable), a justification for why the flexibility in Sanction was applied. Such agreement shall be considered as a decision for the case and will be reported to the parties with a right to appeal under 12.2.2 and published as provided in Article 13.3.

7.6.2 Waiver of Hearing

A Person Responsible and/or member of the Support Personnel and/or Owner may waive a hearing expressly. Alternatively, if the Person Responsible and/or member of the Support Personnel and/or Owner against whom an ECM Rule violation is asserted fails to dispute that assertion within ten (10) days of Notification (or within any other deadline as may be imposed in a specific case) that such a violation is alleged, then he/she shall be deemed to have admitted the violation, to have waived a hearing, and to have accepted the Consequences that are mandated by these ECM Rules or (where some discretion as to Consequences exists under these ECM Rules) that have been offered by the FEI provided that FEI Tribunal approval has been provided.

7.6.3 In cases where Article 7.6.1 or Article 7.6.2 applies, a hearing before a hearing panel shall not be required. Instead the FEI Tribunal shall promptly issue a written decision confirming the commission of the ECM Rule violation and the Consequences imposed as a result, and setting out the full reasons for any period of Ineligibility imposed, including (if applicable) a justification for why the maximum potential period of Ineligibility was not imposed. The FEI shall send copies of that decision to other Anti-Doping Organizations with a right to appeal under Article 12.2.2, and shall Publicly Disclose that decision in accordance with Article 13.3.

ARTICLE 8 RIGHT TO A FAIR HEARING

8.1 Hearings before the FEI Tribunal

8.1.1 The FEI Tribunal shall Decide all cases involving violations of these ECM Rules.
8.1.2 When the FEI sends a Notice to a Person Responsible and/or a member of the Support Personnel and/or Owner asserting a violation of these ECM Rules and the Person Responsible and/or member of the Support Personnel does not waive a hearing in accordance with Article 8.4, then the case shall be assigned to a Hearing Panel of the FEI Tribunal for hearing and adjudication.

8.1.3 Hearings pursuant to this Article shall be completed expeditiously following the completion of the Results Management or investigation process described in Article 7 and the submission of all relevant evidence and pleadings by the parties. The Person Responsible and/or member of the Support Personnel (where applicable) alleged to have violated the ECM Rules shall cooperate promptly in the submission of such evidence and pleadings and in attendance at a hearing if requested by the FEI Tribunal.

8.1.4 The Person Responsible and/or member of the Support Personnel (including Owner) alleged to have violated the ECM Rules may attend the hearing under all circumstances.

8.1.5 A Person Responsible and/or member of the Support Personnel (where applicable) may acknowledge the ECM Rule violation and accept consequences consistent with Articles 8.3.3 and 8.3.4 of the ECM Rules (if the Administrative Procedure is elected) or Articles 9 and 10 ECM Rules as proposed by the FEI.

8.2 Principles for a Fair Hearing

All Decisions and hearings under these ECM Rules shall respect the following principles:

A. fair and impartial Hearing Panel;

B. the right to be represented by counsel (separately or together) at the Person Responsible’s and/or member of the Support Personnel’s (including Owner’s) own expense;

C. The right to be fairly and timely informed of the asserted ECM Rule violation;

D. The right to respond to the asserted ECM Rule violation and resulting consequences;

E. The right of each party to present evidence (including, but not limited to any evidence the FEI obtains from the activities of the Equestrian Community Integrity Unit);

F. The right of each party to call and question witnesses (subject to the Hearing Panel’s discretion to accept testimony by telephone or written submission);

G. A timely hearing, subject to prompt and complete submissions by the parties;

H. The Person Responsible’s and/or member of the Support Personnel’s (including Owner) right to an interpreter at the hearing if requested at least
five (5) business days in advance of the hearing, with the Hearing Panel to
determine the identity and responsibility for the costs of the interpreter; and

I. A timely, written, reasoned Decision, specifically including an explanation for
any period of Ineligibility.

8.3 Administrative Procedure

8.3.1 For Adverse Analytical Findings involving Controlled Medication
Substances, the Person Responsible and/or member of the Support Personnel
(where applicable) may elect to have their case processed under the
“Administrative Procedure” provided that:

a. No more than one (1) Controlled Medication Substance (including its
metabolites or markers) is detected in the Sample;

b. The Person Responsible and/or member of the Support Personnel
(where applicable) and the Horse are first-time offenders (namely, no
record of any EAD or ECM Rule violations, or violations of any
predecessor rules) without any pending or concluded cases within the
last four (4) years preceding the Sample which caused the Adverse
Analytical Finding; and

c. The Event during which the Sample was taken from the Horse is not
part of the Olympic Games, Paralympic Games or World Equestrian
Games.

8.3.2 If the Person Responsible requests a hearing before the FEI Tribunal,
Article 10 below shall apply at the discretion of the Hearing Panel.

8.3.3 Where the Administrative Procedure is applied by the FEI, the following
consequences shall be imposed and no other consequences, including those
set forth in Article 10 below or elsewhere in these ECM Rules, shall be
applicable to any Person who has elected this Administrative Procedure:

a. Disqualification of the Person Responsible and/or member of the
Support Personnel (where applicable) and the Horse from the whole
Event and forfeiture of all prizes and prize money won at the Event;

b. A Fine of CHF 1,500; and

c. Costs of CHF 1,000. However, if a B Sample analysis is requested
and the Administrative Sanction accepted after the B Sample Analysis,
the costs shall be increased to CHF 2,000.

8.3.4 Where the Person Responsible is a Minor at the time of the Event, the
consequences shall be limited to Disqualification from the Event and forfeiture
of all prizes and prize money won at the Event, in addition to payment of any
costs associated with the Administrative Procedure.

8.3.5 In order to apply this Administrative Procedure, the Person Responsible
and/or member of the Support Personnel (where applicable) must execute an
Acceptance Form within fourteen (14) calendar days following the date of the
Notice in which the FEI offers this Administrative Procedure to the Person alleged to have committed the ECM Rule violation. The FEI may reasonably extend such deadline provided the file has not yet been circulated to the FEI Tribunal or any of its members.

8.3.6 If the Person Responsible and/or member of the Support Personnel (where applicable) does not elect the Administrative Procedure within the fixed time limit, the Administrative Sanctions shall be considered declined and the case shall be submitted to the FEI Tribunal for final Decision. The FEI Tribunal may impose Sanctions and costs which may be more or less severe than the ones provided for in the Administrative Procedure.

8.3.7 A record of Administrative Procedure Sanctions will be published, on a weekly basis, on the FEI website.

8.4 Decisions

8.4.1 At the end of the hearing, or on a timely basis thereafter, the FEI Tribunal shall issue a written decision that includes the full reasons for the decision and for any period of Ineligibility imposed, including (if applicable) a justification for why the greatest potential Consequences were not imposed. The FEI Tribunal may decide to communicate the operative part of the decision to the parties, prior to the reasons. The decision shall be enforceable from such notification of the operative part by courier, facsimile and/or electronic mail.

8.4.2 If no appeal is brought against the decision, then (a) if the decision is that an ECM Rule violation was committed, the decision shall be Publicly Disclosed as provided in Article 13.3.2; but (b) if the decision is that no ECM Rule violation was committed, then the decision shall only be Publicly Disclosed with the consent of the Person Responsible and/or member of the Support Personnel. The FEI shall use reasonable efforts to obtain such consent, and if consent is obtained, shall Publicly Disclose the decision in its entirety or in such redacted form as the Person Responsible and/or member of the Support Personnel may approve.

The principles contained at Article 13.3.5 shall be applied in cases involving a Minor.

ARTICLE 9 AUTOMATIC DISQUALIFICATION OF INDIVIDUAL RESULTS

9.1 For cases other than those prosecuted under the Administrative Procedure, a violation of these ECM Rules in connection with a Test in a given Competition automatically leads to the Disqualification of the result of the Person Responsible and Horse combination obtained in that Competition with all resulting consequences, including forfeiture of any related medals, points and prizes. Where applicable, consequences to teams are detailed in Article 11. Even if a Sanction is reduced or eliminated under Article 10 below, such reduction or eliminated shall under no circumstances eliminate the automatic Disqualification of Individual Results mandated by this Article 9.
9.2 In circumstances where the Person Responsible and Owner are informed of an Adverse Analytical Finding in accordance with Article 7.1 and

(i) the B Sample analysis confirms the A Sample analysis; or

(ii) the right to request the analysis of the B Sample is not exercised; and

(iii) where requested by the FEI and/or the Person Responsible,

the matter will be submitted to the FEI Tribunal who shall decide whether or not to apply Article 9.1 at that stage of the proceedings by issuing a partial Decision.

ARTICLE 10 SANCTIONS

10.1 Disqualification of Results in the Event during which an ECM Rule Violation Occurs

The following rules relating to the Disqualification of results will apply to cases other than those prosecuted under the Administrative Procedure:

10.1.1 At the Olympic Games, Paralympic Games, FEI World Equestrian Games, FEI Championships for Seniors, and Regional Games: An ECM Rule violation occurring during or in connection with an Event shall lead to Disqualification of all of the Person Responsible’s individual results obtained in that Event, with any and all Horses with which the Person Responsible competed, with all consequences (and the resulting consequences to teams as provided in Article 11), including forfeiture of all medals, points and prizes, except as provided in Article 10.1.4.

10.1.2 At Events other than those listed above: an ECM Rule violation occurring during or in connection with an Event may lead to Disqualification of all of the Person Responsible’s individual results obtained in that Event, with any and all Horses with which the Person Responsible competed, with all consequences, including forfeiture of all medals, points and prizes, except as provided in Article 10.1.4.

10.1.3 Notwithstanding the above, for all Events, including but not limited to the Olympic and Paralympic Games, exceptional circumstances may be considered. Generally, and subject to 10.1.4 and 10.1.5 below, all Results from Competitions in which the Person Responsible or Horse participated prior to Sample collection shall be Disqualified unless it can be demonstrated that such Results were not likely to have been affected by the ECM Rule violation.

10.1.4 If the Person Responsible establishes that he bears No Fault or Negligence for the ECM Rule violation, the Person Responsible’s individual results in the other Competitions shall not be Disqualified unless the Person Responsible’s results in Competitions other than the Competition in which the ECM Rule violation occurred were likely to have been affected by the Person Responsible’s ECM Rule violation.

10.1.5 In addition, the Person Responsible’s Horse may also be Disqualified from the entire Event with all consequences, including forfeiture of all medals,
points, and prizes even if earned while being ridden by someone other than the Person Responsible, if the Horse’s results in Competitions other than the Competition in which the ECM Rule violation occurred were likely to have been affected by the ECM Rule violation.

10.2 Ineligibility and Fine for Presence, Use or Attempted Use of Controlled Medication Substances or Controlled Medication Methods

The period of Ineligibility for a violation of Articles 2.1, 2.2 or 2.5 shall be six months, subject to potential reduction or suspension pursuant to Articles 10.4, 10.5 or 10.6.

A Fine of up to CHF 15,000 and appropriate legal costs shall also be imposed for any Controlled Medication violation.

10.3 Ineligibility for Other Rule Violations

The period of Ineligibility for violations of these ECM Rules other than as provided in Article 10.2 shall be:

10.3.1 For violations of Article 2.3 (Tampering or Attempted Tampering with Controlled Medication), Article 2.4 (Assisting, encouraging, aiding, abetting, covering up or any other type of complicity involving an ECM Rule violation or any Attempted ECM Rule violation), the period of Ineligibility set forth in Article 10.2 shall apply unless the conditions for eliminating, reducing or increasing the Sanction provided in Articles 10.4, or 10.5 are met. A Fine of up to CHF 15,000 and appropriate legal costs shall also be imposed.

10.4 Elimination of the Period of Ineligibility Where there is No Fault or Negligence

If the Person Responsible and/or member of the Support Personnel (where applicable) establishes in an individual case that he/she bears No Fault or Negligence for the ECM Rule violation, the otherwise applicable period of Ineligibility and other Sanctions (apart from Article 9) shall be eliminated in regard to such Person. When a Controlled Medication Substance and/or its Metabolites or Markers is detected in a Horse’s Sample in violation of Article 2.1 (presence of a Controlled Medication Substance), the Person Responsible and/or member of the Support Personnel (where applicable) must also establish how the Controlled Medication Substance entered the Horse’s system in order to have the period of Ineligibility and other Sanctions eliminated. In the event this Article is applied and the period of Ineligibility otherwise applicable is eliminated, the ECM Rule violation shall not be considered a violation for the limited purpose of determining the period of Ineligibility for Multiple Violations under Article 10.8 below.

Article 10.4 can apply in cases involving Specified Substances. Otherwise Article 10.4 only applies in exceptional circumstances. No Fault or Negligence does not apply in the following circumstances:

(a) where the presence of the Controlled Medication Substance in a Sample came from a mislabeled or contaminated supplement. Persons
Responsible are responsible for what their Horses ingest and have been warned about the possibility of supplement contamination.

(b) the Administration of a Controlled Medication Substance by the Person Responsible’s veterinary personnel or member of the Support Personnel without disclosure to the Person Responsible. Persons Responsible are responsible for their choice of veterinary personnel and Support Personnel and for advising veterinary personnel and Support Personnel that the presence of a Controlled Medication Substance in a Horse’s system is forbidden during an Event without a valid Veterinary Form.

10.5 Reduction of the Period of Ineligibility based on No Significant Fault or Negligence

10.5.1 Reduction of Sanctions for Specified Substances and Contaminated Products

10.5.1.1. Specified Substances

Where the ECM rule violation involves a Controlled Medication Substance that is a Specified Substance, and the Person Responsible and/or member of the Support Personnel can establish No Significant Fault or Negligence, then the period of Ineligibility shall be, at a minimum, a reprimand and no period of Ineligibility, and at a maximum, six months of Ineligibility, depending on the Athlete’s or other Person’s degree of Fault. Where the Person Responsible and/or member of the Support Personnel intends to establish that he/she bears No Fault or Negligence, Article 10.4 shall apply.

10.5.1.2. Contaminated Products

In cases where the Person and/or member of the Support Personnel can establish No Significant Fault or Negligence and that the detected Controlled Medication came from a Contaminated Product, then the period of Ineligibility shall be, at a minimum, a reprimand and no period of Ineligibility, and at a maximum, six months Ineligibility, depending on such Person’s and/or member of the Support Personnel’s degree of Fault.

10.5.2 Application of No Significant Fault or Negligence beyond the Application of Article 10.5.1

If a Person Responsible and/or member of the Support Personnel (where applicable) establishes in an individual case that he bears No Significant Fault or Negligence, then the otherwise applicable period of Ineligibility and other Sanctions (apart from Article 9) may be reduced in regard to such Person. When a Controlled Medication Substance or its Metabolites or Markers is detected in a Horse’s Sample in violation of Article 2.1 (presence of a Controlled Medication Substance and/or its Metabolites or Markers), the Person alleged to have committed the ECM Rule violation must also establish how the Controlled Medication Substance or its Metabolites or Markers entered the Horse’s system in order to have the period of Ineligibility and other Sanctions reduced.
10.6 Elimination, Reduction, or Suspension of Period of Ineligibility or other Consequences for Reasons Other than Fault

10.6.1 Substantial Assistance in Discovering or Establishing ECM Rule Violations

The FEI Tribunal may, prior to a final appellate Decision under Article 12 below or the expiration of the time to appeal, suspend a part or all of the period of Ineligibility imposed in an individual case where the Person Responsible and/or member of the Support Personnel has provided Substantial Assistance to the FEI, the Equestrian Community Integrity Unit, criminal authority or professional disciplinary body which results in (i) the FEI discovering or bringing forward an ECM Rule violation by another Person or (ii) which results in a criminal or disciplinary body discovering or bringing forward a criminal offence or the breach of professional rules by another Person and the information provided by such Person providing Substantial Assistance is made available to the FEI. Such Substantial Assistance must be independently corroborated in order to reduce the period of Ineligibility and under no circumstance should it amount only to blaming another Person or entity for the alleged ECM Rule violation. The extent to which the otherwise applicable period of Ineligibility may be suspended shall be based on the seriousness of the ECM Rule violation committed and the significance of the Substantial Assistance provided in an effort to promote medication-free Competition. If the Person Responsible and/or member of the Support Personnel fails to continue to cooperate and to provide the complete and credible Substantial Assistance upon which a suspension of the period of Ineligibility was based, the FEI Tribunal shall reinstate the original period of Ineligibility. If the FEI Tribunal decides to reinstate a suspended period of Ineligibility, that decision may be appealed by any Person entitled to appeal under Article 12.

10.6.2 Admission of an ECM Rule Violation in the Absence of Other Evidence

Where a Person Responsible and/or member of the Support Personnel voluntarily admits the commission of an ECM Rule violation before having received Notice of a Sample collection which could establish an ECM Rule violation (or, in the case of a ECM Rule violation other than Article 2.1, before receiving first Notice of the admitted violation pursuant to Article 7) and that admission is the only reliable evidence of the violation at the time of admission, then the period of Ineligibility may be reduced subject to the discretion of the Hearing Panel.

10.6.3 Prompt Admission of an Anti-Doping Rule Violation after being Confronted with a Violation Sanctionable under Article 10.3.1

A Person Responsible and/or member of the Support Personnel potentially subject to a one year sanction under 10.3.1 (for Tampering with Sample Collection), by promptly admitting the asserted anti-doping rule violation after
being confronted by the FEI, and also upon the approval and at the discretion of the FEI Tribunal, may receive a reduction in the period of Ineligibility down to a minimum of one half of the otherwise applicable period of Ineligibility, depending on the seriousness of the violation and the Person Responsible and/or member of the Support Personnel’s degree of Fault.

10.6.4 Where a Person Responsible and/or member of the Support Personnel Establishes Entitlement to a Reduction in Sanction Under More than One Provision of this Article

If the Person Responsible and/or member of the Support Personnel establishes entitlement to a reduction or suspension of the period of Ineligibility under two (2) or more of Articles 10.4, 10.5 or 10.6, then the period of Ineligibility may be reduced or suspended further subject to the discretion of the Hearing Panel.

10.7 Aggravating Circumstances Which May Increase the Period of Ineligibility

If the FEI establishes in an individual case involving an ECM Rule violation other than violations under Article 2.4 above (Assisting, encouraging, aiding, abetting, covering up or any other type of complicity involving an ECM Rule violation or any Attempted Rule violation) that aggravating circumstances are present which justify the imposition of a period of Ineligibility greater than the standard Sanction, then the period of Ineligibility otherwise applicable shall be increased up to a maximum of two (2) years unless the Person Responsible and/or member of the Support Personnel (where applicable) can prove to the comfortable satisfaction of the Hearing Panel that he or she did not knowingly commit the ECM Rule violation. The occurrence of multiple substances or methods may be considered as a factor in determining aggravating circumstances under this Article 10.7. The Person Responsible and/or member of the Support Personnel can avoid the application of this article by admitting the ECM Rule violation as asserted promptly after being confronted with the Rule violation by the FEI.

10.8 Multiple Violations

10.8.1 For a Person Responsible and/or member of the Support Personnel’s second ECM Rule violation (within the previous 4 years), the period of Ineligibility shall be the greater of:

(a) three months;

(b) one-half of the period of Ineligibility imposed for the first ECM Rule violation without taking into account any reduction under Article 10.6; or

(c) twice the period of Ineligibility otherwise applicable to the second ECM Rule violation treated as if it were a first violation, without taking into account any reduction under Article 10.6.
The period of *Ineligibility* established above may then be further reduced by the application of Article 10.6.

**10.8.2** For a third ECM Rule violation, within the previous 4 years, the Hearing Panel shall have the discretion to increase the Sanction to up to 4 years of *Ineligibility*. For a fourth or more ECM Rule violation, within the previous 4 years, the *Hearing Panel* shall have the discretion to impose a lifetime period of *Ineligibility* and shall in no circumstances render a Sanction of less than 4 years *Ineligibility*.

The conditions set out in Articles 10.8.1 and 10.8.2 above shall apply in case one or more of the rule violations previously committed were *EAD Rule* violations. However, these Articles shall also be applicable if the *EAD Rule* violation preceding the current *ECM Rule* violation occurred in the previous 10 years.

**10.8.3** An *ECM Rule* violation for which an *Person Responsible* and/or member of the *Support Personnel* has established *No Fault or Negligence* shall not be considered a prior violation for purposes of this Article.

**10.8.4** Additional Rules for Certain Potential Multiple Violations

**10.8.4.1** For purposes of imposing sanctions under Article 10.8, an *ECM Rule* violation will only be considered a second violation if FEI can establish that the *Athlete* or other *Person* committed the second *ECM Rule* violation after the *Athlete* or other *Person* received notice pursuant to Article 7, or after the FEI made reasonable efforts to give notice of the first *ECM Rule* violation. If the FEI cannot establish this, the violations shall be considered together as one single first violation, and the sanction imposed shall be based on the violation that carries the more severe sanction.

**10.8.4.2** If, after the imposition of a sanction for a first *ECM Rule* violation, the FEI discovers facts involving an *ECM Rule* violation by the *Person Responsible* and/or member of the *Support Personnel* which occurred prior to notification regarding the first violation, then FEI shall impose an additional sanction based on the sanction that could have been imposed if the two violations had been adjudicated at the same time. Results in all *Competitions* dating back to the earlier anti-doping rule violation will be *Disqualified* as provided in Article 10.9.

**10.8.5 Violations Involving Both a Controlled Medication Substance or Method and a Banned Substance or Method**

Where a *Person Responsible* and/or member of the *Support Personnel* based on the same factual circumstances is found to have committed an *ECM Rule* violation involving both (a) *Controlled Medication Substance(s)* or (a) *Controlled Medication Method(s)* under these *ECM Rules* and (a) *Banned Substance(s)* or *Banned Method(s)* under the *EAD Rules*, the *Person Responsible* and/or member of the *Support Personnel* shall be considered to have committed one rule violation, but the Sanction imposed shall be based
on the *Banned Substance* or *Banned Method* that carries the most severe Sanction.

**10.9 Disqualification of Results in Competitions Subsequent to Sample Collection or Commission of an ECM Rule Violation**

**10.9.1** In addition to the automatic *Disqualification* of the results in the *Competition/the Event* which produced the positive *Sample* under Article 9 (Automatic *Disqualification* of Results), all other competitive results obtained from the date a positive *Sample* was collected, or other ECM Rule violation occurred, through the commencement of any Provisional Suspension or Ineligibility period, shall, unless fairness requires otherwise, be *Disqualified* with all of the resulting consequences including forfeiture of any medals, points and prizes.

**10.9.2** As a condition of regaining eligibility after being found to have committed an ECM Rule violation, the *Person Responsible* and/or member of the *Support Personnel* must first repay all prize money forfeited under this Article and any other fines and/or costs attributed to the violation which have been ordered by the FEI Tribunal or otherwise accepted by the Person Responsible.

**10.10 Commencement of Ineligibility Period**

10.10.1 Except as provided below, the period of *Ineligibility* imposed on any *Person* or *Horse* shall start on the date of the *Decision* providing for Ineligibility or if the hearing is waived or there is no hearing, on the date Ineligibility is accepted or otherwise imposed or any other date specified by the FEI Tribunal in its *Decision*.

**10.10.2 Delays Not Attributable to the Person Responsible and/or member of the Support Personnel**

Where there have been substantial delays in the hearing process or other aspects of Medication Control not attributable to the Person Responsible and/or member of the *Support Personnel* alleged to have committed the Rule violation, the Hearing Panel may start the period of Ineligibility at an earlier date commencing as early as the date of *Sample* collection or the date on which another ECM Rule violation last occurred. All competitive results achieved during the period of Ineligibility including retroactive Ineligibility shall be Disqualified.

**10.10.3 Timely Admission**

Where the *Person Responsible* and/or member of the *Support Personnel* (where applicable) promptly (which, for the Person Responsible, in all circumstances, means before the Person Responsible competes again) admits the ECM Rule violation after being confronted with the Rule violation by the FEI, the period of Ineligibility may start as early as the date of *Sample* collection or the date on which another ECM Rule violation last occurred. In each case, however, where this Article is applied, the Person who committed the ECM Rule violation shall serve at least one-half of the period of Ineligibility going forward from the date Ineligibility is imposed or accepted.
This Article shall not apply where the period of Ineligibility has already been reduced under Article 10.6.3.

10.10.4 Credit for Provisional Suspension or Period of Ineligibility Served

If a Provisional Suspension is imposed (or voluntarily accepted) and respected by the Person Responsible, member of the Support Personnel, and/or Horse, then a credit shall be received for such period of Provisional Suspension against any period of Ineligibility which may ultimately be imposed as determined by the FEI Tribunal. If a period of Ineligibility is served pursuant to a decision that is subsequently appealed, then the Person Responsible and/or member of the Support Personnel and/or Horse shall receive a credit for such period of Ineligibility served against any period of Ineligibility which may ultimately be imposed on appeal.

10.10.5 If a Person Responsible and/or member of the Support Personnel voluntarily accepts a Provisional Suspension in writing for himself, herself or the Horse, and thereafter refrains from participating in equestrian activities, such Person or Horse shall receive a credit for such period of voluntary Provisional Suspension against any period of Ineligibility which may ultimately be imposed. A copy of the voluntary Provisional Suspension shall be provided promptly to each party entitled to receive Notice of a potential ECM Rule violation. If a Provisional Suspension is voluntarily accepted, it can only be lifted by Decision of the FEI Tribunal.

10.10.6 No credit against a period of Ineligibility shall be given for any time period before the effective date of the Provisional Suspension or voluntary Provisional Suspension regardless of whether the Person alleged to have committed the ECM Rule violation elected not to compete or was suspended by his team.

10.11 Status During Ineligibility

10.11.1 Prohibition against Participation during Ineligibility

No Horse, Person Responsible and/or member of the Support Personnel who has been declared Ineligible may, during the period of Ineligibility, participate in any capacity at an Event, or in a Competition or activity that is authorised or organised by the FEI or any National Federation or be present at an Event (other than as a spectator) that is authorised or organised by the FEI or any National Federation, or participate in any capacity at an Event or in a Competition authorised or organised by any international or national-level Event organisation or any elite or national-level sporting activity funded be a governmental agency. In addition, for any ECM Rule violation, some or all of sport-related financial support or other sport-related benefits received by such Person Responsible or Support Personnel may be withheld by the FEI and/or its National Federations. A Horse subject to a period of Ineligibility shall remain subject to Testing.

In addition, any Person Responsible or member of the Support Personnel or Horse subject to Ineligibility under Article 10 may also be banned from any
venues where FEI competitions are taking place, whether or not the Person Responsible or member of the Support Personnel is registered with the FEI.

10.11.2 Violation of the Prohibition of Participation During Ineligibility

Where a Person Responsible or member of the Support Personnel who has been declared Ineligible or whose Horse has been declared Ineligible violates the prohibition against participation or attendance during Ineligibility described in Article 10.11.1 above, the results of any such participation shall be Disqualified and a new period of Ineligibility equal in length up to the original period of Ineligibility shall be added to the end of the original period of Ineligibility. The new period of Ineligibility may be adjusted based on the Person Responsible and/or member of the Support Personnel’s degree of Fault or other circumstance of the case. In addition, further sanctions may be imposed if appropriate. The determination of whether any Person has violated the prohibition against participation or attendance, and whether an adjustment shall be made by the FEI Tribunal. This decision may be appealed under Article 12.

ARTICLE 11 CONSEQUENCES TO TEAMS

11.1 Unless otherwise provided in the FEI Regulations for Equestrian Events at the Olympic or Paralympic Games, the Consequences to teams set forth below will apply.

11.1.1 At the Olympic Games, Paralympic Games, FEI World Equestrian Games, FEI Championships for Seniors, and Regional Games: If a member of a team is found to have committed a violation of these ECM Rules during an Event, the results of the Person Responsible will be Disqualified in all Competitions and the entire team Disqualified.

11.1.2 At all other Events than those listed above: If a member of a team is found to have committed a violation of these ECM Rules during an Event where a team ranking is based on the addition of individual results, the results of the Person Responsible may be Disqualified in all Competitions and will be subtracted from the team result, to be replaced with the results of the next applicable team member. If by removing the Person Responsible’s results from the team results, the number of Athletes counting for the team is less than the required number, the team shall be eliminated from the ranking.

11.2 Notwithstanding the above, for all Events, including but not limited to the Olympic and Paralympic Games, exceptional circumstances may be considered.

ARTICLE 12 APPEALS

12.1 Decisions Subject to Appeal

Decisions made under these ECM Rules may be appealed as set forth below in Article 12.2 through 12.3. Such Decisions shall remain in effect while under appeal unless the appellate body orders otherwise.
12.1.1  Scope of Review Not Limited

The scope of review on appeal includes all issues relevant to the matter and is expressly not limited to the issues or scope of review before the initial decision maker.

12.1.2  CAS Shall Not Defer to the Findings Being Appealed

In making its decision, CAS need not give deference to the discretion exercised by the body whose decision is being appealed.

12.2  Appeals from Decisions Regarding ECM Rule Violations Consequences, and Provisional Suspensions

The following Decisions may be appealed exclusively as provided in this Article 12.2: (a) a Decision that an ECM Rule violation was committed; (b) a Decision imposing consequences for an ECM Rule violation; (c) a Decision that no ECM Rule violation was committed; (d) a Decision that an ECM Rule violation proceeding cannot go forward for procedural reasons (including, for example, exceeding the Statute of Limitations); (e) a Decision under Article 10.11.2 (Violation of the Prohibition of Participation during Ineligibility); (f) a Decision that the FEI or a National Federation lacks jurisdiction to rule on an alleged ECM Rule violation or its consequences; (g) a Decision by any National Federation not to bring forward an Adverse Analytical Finding or an Atypical Finding as a Controlled Medication violation, or a Decision not to go forward with a Controlled Medication violation; and (h) a Decision to impose a Provisional Suspension as a result of a Preliminary Hearing or otherwise, in violation of Article 7.4; the only Person that may appeal from a Provisional Suspension is the FEI or the Person upon whom or upon whose Horse the Provisional Suspension is imposed.

12.2.1 In cases arising from participation in an International Event or in cases involving FEI-registered Horses the Decision may be appealed exclusively to CAS in accordance with the provisions applicable before CAS.

12.2.2. In cases under Article 12.2.1, the following parties shall have the right to appeal to CAS: (a) the Person Responsible and/or member of the Support Personnel who is the subject of the Decision being appealed, or the Horse Owner, where its Horse is subject to Provisional Suspension or Ineligibility; (b) the other party to the case in which the Decision was rendered; (c) the FEI; (d) the National Federation of the Person who is the subject of the Decision being appealed; and (e) the International Olympic Committee or International Paralympic Committee, as applicable, where the Decision may have an effect in relation to the Olympic Games or Paralympic Games, including Decisions affecting eligibility for the Olympic Games or Paralympic Games.

12.2.3 Cross Appeals and other Subsequent Appeals Allowed

Cross appeals and other subsequent appeals by any respondent named in cases brought to CAS under the Code are specifically permitted. Any party with a right to appeal under this Article 13 must file a cross appeal or subsequent appeal at the latest with the party’s answer.
12.3 Time for Filing Appeals

The time to file an appeal to CAS shall be twenty one (21) days from the date of Receipt of the Hearing Panel Decision by the appealing party. The above notwithstanding, the following shall apply in connection with appeals filed by a party entitled to appeal but which was not a party to the proceedings having led to the Decision subject to appeal:

a) Within ten (10) days from Notice of the Decision, such party/ies shall have the right to request from the Hearing Panel having issued the Decision a copy of the file on which it relied; a failure to make such request shall however not preclude such party from appealing to CAS within the time period set forth above; and

b) If such a request is made within the ten (10) days period, then the party making such request shall have twenty one (21) days from receipt of the file to appeal to CAS.

ARTICLE 13 APPLICATION, REPORTING AND RECOGNITION

13.1 Application of FEI ECM Rules

For FEI Disciplines only, all National Federations shall specifically incorporate Articles 2, 3, 4, and 8.2 of these ECM Rules into their anti-doping regulations without substantive change by January 1, 2016 and enforce them against their members, unless doing so would contravene any applicable national law. If any National Federations that has had its own anti-doping rules in effect for at least five (5) years is opposed to incorporating Article 4 by January 1, 2016, such National Federation may delay such implementation beyond January 1, 2016 and instead coordinate and agree with the FEI on an individual basis the appropriate implementation, if any, of Article 4 going forward. With regards to the other Articles of these Rules, National Federations, to the extent they do not wish to incorporate them, shall adopt corresponding provisions which embody similar concepts and principles, especially with respect to Article 10. Nothing in these Rules shall be interpreted to prevent a National Federation from conducting out-of-competition testing on national Horses as part of its national Doping Control.

13.2 Statistical Reporting

National Federations shall report to the FEI at the end of every year aggregated and anonymous results of all Medication Control within their jurisdiction. The FEI may periodically publish Testing data received from National Federations as well as comparable data from Testing under the FEI’s jurisdiction.

13.3 Public Disclosure

13.3.1 Neither the FEI or its National Federation shall publicly identify Horses or Persons Responsible whose Horses’ Samples have resulted in Adverse Analytical Findings, or Persons Responsible and/or members of the Support Personnel who were alleged to have otherwise violated these Rules, until the earlier of completion of the administrative review and Notification described in
Articles 7.1.2 and 7.1.4 or the start of the *Provisional Suspension* of the *Person* alleged to have violated the *ECM Rule*. Once a violation of these *ECM Rules* has been established, it shall be publicly reported in an expeditious manner via the *FEI Case Status Table* at [www.fei.org](http://www.fei.org) unless another mechanism for publicly reporting the information is warranted at the discretion of the *FEI*. With regards to the *Administrative Procedure* set forth in Article 8.3 above, publication shall occur on the acceptance of the Administrative Sanction. If the *Person Responsible* and/or member of the *Support Personnel* or the *National Federation* of any such *Person* makes information concerning a *Rule* violation or alleged *ECM Rule* violation public prior to release of this information on the Case Status Table, the *FEI* may comment on such public information or otherwise publicly report the matter.

**13.3.2** In any case where it is determined, after a hearing or appeal, that the *Person Responsible* and/or member of the *Support Personnel* did not commit an *ECM Rule* violation, the *Decision* may be Publicly Disclosed only with the consent of the *Person* who is the subject of the *Decision*. The *FEI* shall use reasonable efforts to obtain such consent, and if consent is obtained, shall Publicly Disclose the *Decision* in its entirety or in such redacted form as such *Person* and *FEI* may jointly approve.

**13.3.3** Publication shall be accomplished at a minimum by placing the required information on the *FEI’s Web site* or publishing it through other means and having the information up for the longer of one month or the period of Ineligibility.

**13.3.4** Neither the *FEI*, any *National Federation*, any *Laboratory*, or any official of any of the above, shall publicly comment on the specific facts of a pending case (as opposed to a general description of process and science), except in response to public comments attributed to the *Person Responsible* and/or member of the *Support Personnel* or their representatives.

**13.3.5** The mandatory *Public Reporting* required in article 13.3.2 shall not be required where the *Person Responsible* and/or member of the *Support Personnel* who has been found to have committed a controlled medication violation is a *Minor*. Any optional *Public Reporting* in a case involving a *Minor* shall be proportionate to the facts and circumstances of the case.

**13.4 Recognition of Decisions by National Federations**

Any *Decision* of the *FEI* regarding a violation of these *ECM Rules* shall be recognized and enforced by all *National Federations* (including with respect to *National Events*) and *National Federations* shall take all necessary action to implement any and all ramifications relating to such *Decisions*. Failure to do so may be considered a violation of these *ECM Rules* and the *FEI Statutes*.

**ARTICLE 14 STATUTE OF LIMITATIONS**

No action may be commenced under these *ECM Rules* against a *Person Responsible* and/or member of the *Support Personnel* for an *ECM Rule* violation unless he or she has been notified of the *ECM Rule* violation as provided in Article 7, or notification has been reasonably attempted within four (4) years from the date the violation is asserted to have occurred.
ARTICLE 15 AMENDMENT AND INTERPRETATION OF ECM RULES

15.1 These ECM Rules may be amended from time to time by the FEI in accordance with the FEI Statutes and General Regulations.

15.2 Except as provided in Article 15.5, these ECM Rules shall be interpreted as an independent and autonomous text and not by reference to existing law or statutes. Nothing herein shall be interpreted to supplant the applicability of national laws to national events.

15.3 The headings used for the various parts and articles of these ECM Rules are for convenience only and shall not be deemed part of the substance of these Rules or to affect in any way the language of the provisions to which they refer.

15.4 The Introduction, Appendix 1 Definitions, the Equine Prohibited Substances List, and the FEI List of Approved Laboratories, shall be considered integral parts of these ECM Rules.

15.5 These ECM Rules have been adopted pursuant to the FEI Statutes and General Regulations and shall be interpreted, where applicable, in a manner that is consistent with applicable provisions of these Statutes and General Regulations as well as other FEI rules and regulations including but not limited to the Veterinary Regulations, the Internal Regulations of the FEI Tribunal, the FEI Standard for Laboratories and the various FEI Sport Rules. In the event of conflict with the Statutes or the General Regulations, the Statutes and the General Regulations shall apply, subject however to the application by the FEI Tribunal of the legal principle of lex specialis derogat legi generali which provides that a specific provision should govern over a general provision. In the event of conflict with any other rules or regulations, these ECM Rules shall apply.

15.6 The time limits fixed under the present ECM Rules shall begin from the day after which Notification by the FEI is received. Official holidays and non-working days are included in the calculation of time limits. The time limits fixed under the present ECM Rules are respected if the communications by the parties are sent before midnight on the last day on which such time limits expire. If the last day of the time limit is an official holiday or a non-business day in the country where the Notification has been made, the time limit shall expire at the end of the first subsequent business day.

ARTICLE 16 TRANSITIONAL PROVISIONS

16.1 Application to Decisions Rendered Prior to the 2010 ECM Rules

The 2016 ECM Rules shall have no application to any Controlled Medication Rule violation case where a final Decision finding a Controlled Medication Rule violation has been rendered and the period of Ineligibility has expired.

They shall not apply retroactively to matters pending before the Effective Date; provided, however, that:

16.1.1 ECM Rule violations taking place prior to the Effective Date count as "first violations" or "second violations" for purposes of determining sanctions under Article 10 for violations taking place after the Effective Date.
16.1.2 The retrospective periods in which prior violations can be considered for purposes of multiple violations under Article 10.8.5 and the statute of limitations set forth in Article 14 are procedural rules and should be applied retroactively; provided, however, that Article 14 shall only be applied retroactively if the statute of limitations period has not already expired by the Effective Date. Otherwise, with respect to any ECM Rule violation case which is pending as of the Effective Date and any controlled medication rule violation case brought after the Effective Date based on controlled medication rule violation which occurred prior to the Effective Date, the case shall be governed by the substantive rules in effect at the time the alleged controlled medication rule violation occurred unless the FEI Tribunal or national arbitral panel deciding the case determines the principle of “lex mitior” appropriately applies under the circumstances of the case.

16.1.3 For purposes of assessing the period of Ineligibility for a second violation under Article 10.8.1, where the sanction for the first violation was determined based on rules in force prior to the Effective Date, the period of Ineligibility which would have been assessed for that first violation had these ECM Rules been applicable, shall be applied.
A Sample. At the time of testing, the sample of bodily fluids is split into two portions: an A Sample, which is tested first, and the B Sample, which may be tested if the A Sample requires confirmatory analysis or confirmatory analysis is requested.

Active Substance. Any chemical or compound that affects the function of the body of a human or animal. These substances can be artificial or natural, i.e. those created by the body in response to stimulation or injury. Active substances are often not the same as a product’s trade name, and it is therefore necessary to check for the list of active substances within a product before use.

Administration: Providing, supplying, supervising, facilitating, or otherwise participating in the Use or Attempted Use by another Person of a Prohibited Substance or Prohibited Method. However, this definition shall not include the actions of bona fide veterinary personnel involving a Controlled Medication Substance or Controlled Medication Method used for genuine and legal therapeutic purposes or other acceptable justification and, if administered at an Event, with a valid Veterinary Form.

Administrative Procedure. The procedural mechanism available to an Athlete alleged to have committed an ECM Rule violation as set forth in Article 8.3 of the ECM Rules.

Adverse Analytical Finding. A report from a Laboratory or other approved entity that, consistent with the FEI Standard for Laboratories, identifies in a Horse’s Sample the presence of one or more Prohibited Substances or its Metabolites or Markers (including elevated quantities of endogenous substances) or evidence of the Use of a Prohibited Method.

Anti-Doping Organisation. An organisation that is responsible for initiating, implementing or enforcing any part of the Doping or Medication Control process, including, for example, the FEI, the International Olympic Committee, the International Paralympic Committee, or a National Federation.

Athlete. Any person taking part in an FEI Event. Such person may be, including but not limited to, a rider, a driver, a lunger, or a vaulter.

Attempt. Purposely engaging in conduct that constitutes a substantial step in a course of conduct planned to culminate in the commission of an EADCM Regulation violation. Provided, however, there shall be no Regulation violation based solely on an Attempt to commit a violation if the Attempt is renounced prior to it being discovered by a third party not involved in the Attempt.

Atypical Finding. A report from a Laboratory or other approved entity which requires further investigation as provided by the FEI Standard for Laboratories or related technical documents prior to the determination of an Adverse Analytical Finding.

Banned Method. Any method so described on the Equine Prohibited Substances List.

Banned Substance. Substances (including their Metabolites and Markers) that have been deemed by the FEI List Group to have: a) no legitimate use in the competition Horse and/or b) have a high potential for abuse. Banned Substances are prohibited at all times.
**B Sample.** At the time of testing, the sample of bodily fluids is split into two portions: an A Sample, which is tested first, and the B Sample, which may be tested if the A Sample requires confirmatory analysis or confirmatory analysis is requested.

**CAS.** The Court of Arbitration for Sport

**Competition.** As defined in the FEI General Regulations: “Refers to each individual class in which Athletes are placed in an order of merit and for which prizes may be awarded.”

**Confirmatory analysis.** An analysis of a B Sample to confirm an A Sample Adverse Analytical Finding. Persons Responsible as well as the FEI can request a confirmatory analysis if an Adverse Analytical Finding results from the A Sample during testing.

**Confirmatory Analysis Request Form.** The written form sent to the Person Responsible/the Owner of the Horse (if applicable) by the FEI Legal Department that must be completed and returned if the Person wants a confirmatory analysis of the B Sample to be undertaken following an Adverse Analytical Finding resulting from the A Sample.

**Contaminated Product:** A product that contains a Prohibited Substance that is not disclosed on the product label or in information available in a reasonable Internet search.

**Controlled Medication Method.** Any method so described in the Equine Prohibited Substances List.

**Controlled Medication Substance.** Any substance, or it Metabolites or Markers, so described in the Equine Prohibited Substances List. Controlled Medication Substances are considered therapeutic and/or commonly used in equine medicine substances, and considered to have:

a) the potential to affect performance, and/or

b) a potential welfare risk to the Horse.

Controlled Medication Substances are prohibited In-Competition, but may be exceptionally permitted In-Competition when their use has been authorised by the appropriate Veterinary Form.

**Decision (or “Decide”).** An authoritative determination reached or pronounced after consideration of facts and/or law.

**Disqualification, Disqualify, or Disqualified.** A consequence of an EADCM Regulation violation whereby results in a particular Competition or Event are invalidated, with all resulting consequences including forfeiture of any medals, points and prizes.

**Doping Control.** All steps and processes from test distribution planning through to ultimate disposition under the EAD Rules of any appeal including all steps and processes in between such as Sample collection and handling, Laboratory analysis, Results Management, hearings and appeals.

**EADCM Regulations.** The entire regulation system involving Doping Control and Medication Control, incorporating both the EAD Rules and the ECM Rules.

**EAD Rules.** The FEI Equine Anti-Doping Rules.

**ECM Rules.** The FEI Equine Controlled Medication Rules.
**Elective Testing.** Persons Responsible or their representatives may, at the request of a Permitted Treating Veterinarian, elect to have a FEI registered Horse tested by the FEI Approved Laboratory for the presence of up to 4 Controlled Medication Substances. Elective Testing is not available for blood. Anyone applying for Elective Testing should know that some Prohibited Substances that are not detectable in urine tests may be found in a blood sample and lead to a positive test result. The application form for Elective Testing can be downloaded from the FEI website.

**Elimination.** Unless otherwise specified in the applicable FEI Rules and Regulations, Elimination means that the Athlete with the Horse in question may not continue in the Competition at issue but the Horse is not necessarily Eliminated from the entire Event.

**Endogenous Substances.** Substances that originate from within an organism, tissue, or cell. An example of an endogenous substance is testosterone in the gelded horse.

**Equestrian Community Integrity Unit.** An investigative unit of the FEI empowered by Chapter XI of the FEI Statutes to gather evidence relating to any alleged violations of FEI rules, including these EADCM Regulations, and to submit such evidence for consideration by the FEI Tribunal for any cases brought under the EADCM Regulations.

**Equine Prohibited Substances List.** The list identifying the Banned Substances/Controlled Medication Substances and Banned Methods/Controlled Medication Methods as published from time to time under the direction of the Secretary General.

Substances with the same biological or chemical effect as a Prohibited Substance are also included on the List as a legal matter, even if they are not specifically listed by name on the List. This is to prevent anyone using substances that are almost identical to a specifically listed Prohibited Substance in either their chemical composition or biological effect. The List is revised by a group of experts (List Group) who propose changes to the FEI Bureau once a year. All changes come into effect 90 days after publication. The List is available in the “Resources” section of this Clean Sport toolkit, on the Clean Sport website (www.cleansport.org) and as a smartphone app.

**Event.** As defined in the FEI General Regulations: “A complete meeting, ‘Show’, ‘Championship’ or ‘Games’. Events may be organised for one or more than one Discipline.”

**Fault.** Fault is any breach of duty or any lack of care appropriate to a particular situation. Factors to be taken into consideration in assessing an Person Responsible and/or member of the Support Personnel’s degree of Fault include, for example, the Person Responsible’s and/or member of the Support Personnel’s experience, whether the Person Responsible and/or member of the Support Personnel is a Minor, special considerations such as impairment, the degree of risk that should have been perceived by the Person Responsible and/or member of the Support Personnel and the level of care and investigation exercised by the Person Responsible and/or member of the Support Personnel in relation to what should have been the perceived level of risk. In assessing the Person Responsible’s and/or member of the Support Personnel’s degree of Fault, the circumstances considered must be specific and relevant to explain the Person Responsible’s and/or member of the Support Personnel’s departure from the expected standard of behaviour. Thus, for example, the fact that the Person Responsible would lose the opportunity to earn large sums of money during a period of Ineligibility, or the fact that the Person Responsible only has a short time left in his or her career, or the timing of the sporting calendar, would not be relevant factors to be considered in reducing the period of Ineligibility under Article 10.5.1 or 10.5.2.
**FEI.** The *Fédération Equestre Internationale* acting through its applicable representative as determined in its Statutes, General Regulations, other regulations or rules, or by its Secretary General from time to time.

**FEI Manual.** Any manual approved and distributed by the FEI, such as but not limited to the FEI Testing Manual and the FEI Stewards Manual (see Veterinary Regulations).

**FEI Medication Logbook.** Under the FEI VRs, an FEI Medication Logbook must be kept for all FEI Horses, recording the date, substance, and dosage of any treatment of a substance listed on the EPSL whether it occurred during or outside of competition. The record must also clearly identify the person administering the treatment. In the prosecution of any EADCM violation, the FEI Tribunal may request to see the FEI Medication Logbook.

**FEI Standard for Laboratories.** A standard setting out the criteria for Laboratories to apply in respect of analyses, custodial procedures and reports thereon adopted by the *FEI Tribunal* from time to time as certified by the Secretary General in support of these *Regulations*. Compliance with this Standard (as opposed to another alternative standard, practice or procedure) in force at the time of *Sample* analysis shall be sufficient to conclude that the procedures addressed by this Standard were performed properly.

**FEI Tribunal.** The full membership of the hearing body authorised to *Decide* cases under these *Regulations*, as provided for in the FEI Statutes, General Regulations, or other applicable FEI rules and regulations.

**Fine.** A consequence of an EADCM violation whereby a Person Responsible and/or member of the Support Personnel receives a financial penalty.

**Foreign Veterinary Delegate.** Veterinary Delegates appointed in accordance with the FEI General Regulations, Article 154, either by the NFs/OCs or by the FEI, with the agreement of the Technical Committee.

**Ground Jury.** A body of Officials that is empowered under the FEI General Regulations to deal with all protests and reports related to anything occurring during or in direct connection with an Event within the period of its jurisdiction. The period of jurisdiction of the Ground Jury begins one hour before the beginning of the first horse inspection and ends, so far as each discipline is concerned, half an hour after the announcement of the final results in that discipline. The duties of the Ground Jury follow from Article 159 of the FEI General Regulations.

**Hearing Panel.** The specific FEI Tribunal member(s) comprising the Decision-making body in any particular case.

**Horse.** A *Horse*, pony or other member of the genus *Equus* competing in an FEI discipline. A Horse shall be born from a mare.

**In-Competition.** The period commencing one (1) hour before the beginning of the first Horse inspection and terminating half an hour after the announcement of the final results of the last Competition at the Event. This period may vary for the Olympic and Paralympic Games, as determined by the applicable rules.
**Ineligibility.** A consequence of an EADCM Regulations violation whereby the Person Responsible, Horse and/or member of the Support Personnel is barred for a specified period of time from participating in any activities surrounding any Competition or Event or other activity or funding as provided in the applicable rules.

**International Event.** An Event where the FEI, International Olympic Committee, International Paralympic Committee, or a major Event Organisation is the ruling body for the Event or appoints the technical officials for the Event.

**Laboratory.** A laboratory approved by the FEI to analyse Samples.

**Laboratory Documentation Package.** The material produced by the Laboratory to support an analytical result such as for example an Adverse Analytical Finding.

**Marker.** A compound, group of compounds or biological parameter (s) that indicates the Use of a Prohibited Substance or a Prohibited Method.

**Medication Control.** All steps and processes from test distribution planning through to ultimate disposition of any appeal involving an ECM Rule violation, including all steps and processes in between such as, Sample collection and handling, laboratory analysis, Equine Therapeutic Use Exemption, Results Management, hearings and appeals.

**Metabolite.** Any substance produced by a biotransformation process.

**Minor.** A natural Person who has not reached the age of majority as established by the applicable laws of his or her country of residence.

**National Event.** A sport Event involving international- or national-level Persons Responsible that is not an International Event.

**National Federation.** The one national governing body from any country which is effectively in control of or is in a position to effectively control at least the Olympic Equestrian Disciplines and supported by its National Olympic Committee and approved by the General Assembly of the FEI.

**National Olympic Committee.** The organisation recognized by the International Olympic Committee. The term National Olympic Committee shall also include the National Sport Confederation in those countries where the National Sport Confederation assumes typical National Olympic Committee responsibilities in the Anti-Doping area.

**No Fault or Negligence.** The Person Responsible and/or member of the Support Personnel establishing that he or she did not know or suspect, and could not reasonably have known or suspected even with the exercise of utmost caution, that he or she had administered to the Horse, or the Horse’s system otherwise contained, a Banned or Controlled Medication Substance or he or she had Used on the Horse, a Banned or Controlled Medication Method or otherwise violated an EAD or ECM Rule. Except in the case of a Minor, for any violation of Article 2.1, the Athlete must also establish how the Prohibited Substance entered his or her system.
**No Significant Fault or Negligence.** The Person Responsible and/or member of the Support Personnel establishing that his fault or negligence, when viewed in the totality of the circumstances and taking into account the criteria for No Fault or Negligence, was not significant in relationship to the EADCM Regulation violation. Except in the case of a Minor, for any violation of Article 2.1 of the EAD Rules and Article 2.1 of the ECM Rules, the Athlete must also establish how the Prohibited Substance entered his or her system.

**Notice (or "Notify" or "Notification").** Notice to a Person Responsible and/or member of Support Personnel who was a member of a National Federation at the time the alleged Rule violation was committed may be accomplished by delivery of the Notice to the National Federation but, where possible, will also be sent to the Person Responsible and/or member of the Support Personnel (where applicable) directly. In a case where a Horse is Ineligible or subject to any type of Ineligibility, Notice shall be to the Horse Owner, so long as such Owner has properly registered with the FEI. Notice of anything of relevance to the EADCM Regulations will be deemed to have occurred upon Receipt by the relevant Person.

**Out of Competition.** Any Doping Control which is not In-Competition.

**Owner.** Person or entity having a property interest in whole or in part of one or more horses.

**Participant.** Any Horse, Person Responsible, and/or member of the Support Personnel.

**Person.** A natural Person or an organisation or other entity.

**Person Responsible.** For the Person Responsible for an EADCM Regulation violation arising in connection with an In-Competition Test or otherwise alleged to have occurred In-Competition, reference is made to the definition in the FEI General Regulations. This shall include the additional Person Responsible. For all other EADCM Regulation violations, the Person Responsible shall be the Horse's Owner.

**Possession or Possessing.** The actual, physical possession, or the constructive possession (which shall be found only if the Person Responsible has exclusive control or intends to exercise exclusive control over the Banned Substance/Method or the premises in which a Banned Substance/Method exists); provided, however, that if the Person Responsible does not have exclusive control over the Banned Substance/Method or the premises in which a Banned Substance/Method exists, constructive possession shall only be found if the Person Responsible knew about the presence of the Banned Substance/Method and intended to exercise control over it. Provided, however, that there shall be no EAD Rule violation based solely on possession if, prior to receiving Notification of any kind that the Person Responsible has committed an EAD Rule violation, the Person Responsible has taken concrete action demonstrating that the Person Responsible never intended to have possession and has renounced possession by explicitly declaring it to an Anti-Doping Organisation. Notwithstanding anything to the contrary in this definition, the purchase (including by any electronic or other means) of a Banned Substance or Banned Method constitutes possession by the Person Responsible who makes the purchase.

**Preliminary Hearing.** An expedited abbreviated hearing occurring prior to a hearing under Article 8 (Right to a Fair Hearing) of the EAD Rules and the ECM Rules that provides the Person alleged to have committed the violation with Notice and an opportunity to be heard in either written or oral form.
**Prohibited Substances.** Substances that are not permitted for Use in the competition Horse, either a) during competition (Controlled Medication Substances) or b) at any time (Banned Substances). Prohibited Substances fall into two categories, Banned Substances and Controlled Medication Substances.

**Provisional Suspension.** A consequence of an EADCM Regulation violation or admission whereby the Person Responsible and/or member of the Support Personnel and/or a Horse is barred temporarily from participating in any capacity in a Competition or activity or being present at an Event (other than as a spectator) that is authorised or organised by the FEI or any National Federation or at Competitions authorised or organised by any international- or national-level Event organisation prior to the final Decision at a hearing conducted under Article 8 (Right to a Fair Hearing).

**Publicly Disclose or Publicly Report.** To disseminate or distribute information to the general public or Persons beyond those Persons entitled to earlier Notification in accordance with Article 13 of both the EAD and ECM Rules.

**Random Testing.** Testing may be performed randomly under the FEI Veterinary Regulations, i.e. without any specific pattern, purpose or objective.

**Receipt.** When a Person receives something of relevance to the EADCM Regulations. For the avoidance of doubt, in the event there is no specific confirmation of receipt, receipt shall be assumed to have occurred after ten (10) business days from dispatch.

**Sample.** Any biological or other material collected for the purposes of Doping or Controlled Medication.

**Specified Substance.** Those Prohibited Substances identified as Specified Substances on the Prohibited List.

**Substantial Assistance.** For purposes of Article 10.6.1 of the EAD Rules and Article 10.6.1 of the ECM Rules, a Person providing Substantial Assistance must: (1) fully disclose in a signed written statement all information he or she possesses in relation to EADCM Regulation violation(s); and (2) fully cooperate with the investigation and adjudication of any case related to that information, including, for example, presenting testimony at a hearing if requested to do so by an Anti-Doping Organisation or Hearing Panel. Further, the information provided must be credible and must comprise an important part of any case which is initiated or, if no case is initiated, must have provided a sufficient basis on which a case could have been brought.

**Support Personnel.** Any coach, trainer, athlete, Horse Owner, groom, steward, chef d’équipe, team staff, official, veterinarian, medical, or paramedical personnel assisting in any fashion a Person Responsible participating in or preparing for equine sports Competition. Veterinarians are included in the definition of Support Personnel with the understanding that they are professionals subject to professional standards and licenses. An allegation that a veterinarian violated an EADCM Regulation will only be made where the factual circumstances surrounding the case indicate a likelihood that the veterinarian was involved in the violation.

**Tampering.** Altering for an improper purpose or in an improper way; bringing improper influence to bear; interfering improperly; obstructing, misleading or engaging in any fraudulent conduct to alter results or prevent normal procedures from occurring;
**Target Testing.** Selection of Horses for Testing where specific Horses or groups of Horses are selected on a non-random basis for Testing at a specified time.

**Testing or Test.** The parts of the Doping Control and Controlled Medication process involving test distribution planning, Sample collection, Sample handling, and Sample transport to the Laboratory.

**Testing Veterinarian.** An FEI Official Veterinarian who undertakes the collection of samples which will be analysed and processed for Prohibited Substances.

**Threshold Banned or Controlled Medication Substance.** Prohibited Substances for which there is an established quantitative threshold or ratio which must be exceeded in order to be declared an Adverse Analytical Finding as described in the Equine Prohibited Substances List.

**Trafficking.** Selling, giving, transporting, sending, delivering or distributing or Possessing for any such purpose) a Banned Substance or a Banned Method (either physically or by any electronic or other means) by a Person Responsible and/or member of his Support Personnel subject to the jurisdiction of an Anti-Doping Organisation to any third party.

**Use.** The utilization, application, ingestion, injection or consumption by any means whatsoever of any Banned or Controlled Medication Substance or a Banned or Controlled Medication Method.

**Veterinary Commission.** The official adviser on all veterinary matters to the Organising Committee, the Appeal Committee and the Ground Jury at Events, as those terms are defined in the General Regulations.

**Veterinary Delegate.** An FEI Veterinarian whose primary focus at the Event is to ensure that veterinary standards, in accordance with the Veterinary Regulations, are maintained, and to ensure that the welfare of the horse is protected. A Veterinary Delegate may not be involved in the treatment of horses.

**Veterinary Form (formerly: Equine Therapeutic Use Exemption (ETUE)).** The authorisation to compete when a Controlled Medication Substance and/or a Controlled Medication Method has been administered or used for legitimate therapeutic purposes in a Horse, as provided for in the FEI Veterinary Regulations through the use of an applicable Veterinary Form as therein specified. For the avoidance of doubt, Veterinary Forms are not available for Banned Substances or Banned Methods.

**WADA.** The World Anti-Doping Agency.
FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The FEI requires all those involved in international equestrian sport to adhere to the FEI Code of Conduct and to acknowledge and accept that at all times the welfare of the Horse must be paramount. Welfare of the horse must never be subordinated to competitive or commercial influences. The following points must be particularly adhered to:

1. **General Welfare:**
   a) Good Horse management
   Stabling and feeding must be compatible with the best Horse management practices. Clean and good quality hay, feed and water must always be available.
   b) Training methods
   Horses must only undergo training that matches their physical capabilities and level of maturity for their respective disciplines. They must not be subjected to methods which are abusive or cause fear.
   c) Farriery and tack
   Foot care and shoeing must be of a high standard. Tack must be designed and fitted to avoid the risk of pain or injury.
   d) Transport
   During transportation, Horses must be fully protected against injuries and other health risks. Vehicles must be safe, well ventilated, maintained to a high standard, disinfected regularly and driven by competent personnel. Competent handlers must always be available to manage the Horses.
   e) Transit
   All journeys must be planned carefully, and Horses allowed regular rest periods with access to food and water in line with current FEI guidelines.

2. **Fitness to compete:**
   a) Fitness and competence
   Participation in Competition must be restricted to fit Horses and Athletes of proven competence. Horses must be allowed suitable rest period between training and competitions; additional rest periods should be allowed following travelling.
   b) Health status
   No Horse deemed unfit to compete may compete or continue to compete, veterinary advice must be sought whenever there is any doubt.
   c) Doping and Medication
   Any action or intent of doping and illicit use of medication constitute a serious welfare issue and will not be tolerated. After any veterinary treatment, sufficient time must be allowed for full recovery before Competition.
d) Surgical procedures
Any surgical procedures that threaten a competing Horse's welfare or the safety of other Horses and/or Athletes must not be allowed.

e) Pregnant/recently foaled mares
Mares must not compete after their fourth month of pregnancy or with foal at foot.

f) Misuse of aids
Abuse of a Horse using natural riding aids or artificial aids (e.g. whips, spurs, etc.) will not be tolerated.

3. **Events must not prejudice Horse welfare:**
   
a) Competition areas
Horses must be trained and compete on suitable and safe surfaces. All obstacles and competition conditions must be designed with the safety of the Horse in mind.

b) Ground surfaces
All ground surfaces on which Horses walk, train or compete must be designed and maintained to reduce factors that could lead to injury.

c) Extreme weather
Competitions must not take place in extreme weather conditions that may compromise welfare or safety of the Horse. Provision must be made for cooling conditions and equipment for Horses after competing.

d) Stabling at Events
Stables must be safe, hygienic, comfortable, well ventilated and of sufficient size for the type and disposition of the Horse. Washing-down areas and water must always be available.

4. **Humane treatment of horses:**
   
a) Veterinary treatment
Veterinary expertise must always be available at an Event. If a Horse is injured or exhausted during a Competition, the Athlete must stop competing and a veterinary evaluation must be performed.

b) Referral centres
Wherever necessary, Horses should be collected by ambulance and transported to the nearest relevant treatment centre for further assessment and therapy. Injured Horses must be given full supportive treatment before being transported.

c) Competition injuries
The incidence of injuries sustained in Competition should be monitored. Ground surface conditions, frequency of Competitions and any other risk factors should be examined carefully to indicate ways to minimise injuries.

d) Euthanasia

If injuries are sufficiently severe a Horse may need to be euthanised on humane grounds by a veterinarian as soon as possible, with the sole aim of minimising suffering.

e) Retirement

Horses must be treated sympathetically and humanely when they retire from Competition.

5. **Education:**

   The FEI urges all those involved in equestrian sport to attain the highest possible levels of education in areas of expertise relevant to the care and management of the Competition Horse.

This Code of Conduct for the Welfare of the Horse may be modified from time to time and the views of all are welcomed. Particular attention will be paid to new research findings and the FEI encourages further funding and support for welfare studies.
CHAPTER 7.12.

WELFARE OF WORKING EQUIDS

Article 7.12.1.

Introduction

In many countries, working equids, used for transport and traction, contribute directly and indirectly to households' livelihoods and benefit communities as a whole. Working equids may be of direct or indirect use in production and commercial activities.

Specifically, they contribute to agricultural production and food security by transporting, for instance, water and fodder for other livestock, firewood and other daily needs to the homestead and agricultural products to the market. They provide draught power for agricultural work and transport. They may supply manure, milk, meat and hides for household use or income.

The welfare of these working equids is often poor because their owners lack sufficient resources to meet their needs or have insufficient knowledge of the appropriate care of equids. Certain working contexts, such as working in construction industries or in harsh environments, may present a particular risk to their welfare.

Article 7.12.2.

Scope

This chapter applies to horses, donkeys and mules that are destined, used for or retired from traction, transport and generation of income. Equids used in sports or competitions, leisure activities, production of biopharmaceuticals or research are excluded.

For the purposes of this chapter, harness means all parts of the driving harness, saddle, bridle and bit that are used to control the working equid, act as a braking system when pulling a cart, hold loads in place and transfer power to attached carts or agricultural implements.

Article 7.12.3.

Responsibilities

All organisations with defined responsibilities as outlined below should have personnel with the requisite knowledge and skill to perform their duties.

1. Veterinary Authority

   The Veterinary Authority is responsible for implementation of animal health and welfare legislations, policies and programmes. However, in the case of working equids, the responsibility may be shared with other government agencies, institutions and relevant stakeholders.
Chapter 7.12.- Welfare of working equids

2. Other government agencies

The responsibilities of other government agencies will depend on the range of working equid uses and contexts. For example, those agencies responsible for regulating industrial and construction activities, whether for environmental or labour compliance, may also have a responsibility for the working equids involved in the industry. Particularly in urban areas, the transport or other responsible agency may have legislative authority in dealing with traffic circulation and have a role to play in ensuring a safe environment for working equids as well as other road users.

Environmental protection agencies may regulate and enforce measures to prevent working equids from accessing sources of contamination.

The agency responsible for public health may have legislative authority in dealing with zoonoses.

Education authorities have a responsibility in schools and agricultural, veterinary para-professional and veterinary training institutions. Appropriate education and training will prevent many welfare problems.

3. Local government authorities

Local government authorities are responsible for many services and programmes that relate to health, safety and public good within their jurisdiction. In many countries the legislative framework gives authority to local government agencies with regard to aspects of transport, agriculture, public health, environmental health and inspection, and compliance activities including those in relation to animal health measures and responsibility for abandoned and stray animals.

In many countries local government agencies are responsible for the development and enforcement of legislation relating to equine drawn carts and carried loads in traffic, animal identification (registration), licensing and disposal of dead animals.

4. Private veterinarians

Private veterinarians are responsible for providing services and advice to working equid owners or handlers and play an important role in disease surveillance because they may be the first to see an equid suffering from a notifiable disease. They may also play a role (often in liaison with the police or other local authorities) in dealing with cases of neglect that can lead to welfare problems.

Two-way communication between the private veterinarians and Veterinary Authority, often via the medium of a veterinary professional organisation, is important and the Veterinary Authority is responsible for setting up appropriate mechanisms for this interaction.

Private veterinarians may also have a responsibility in supervising and coordination of veterinary para-professionals involved in delivering animal health services.

5. Non-governmental organisations

Relevant non-governmental organisations (NGOs) and intergovernmental organisations should understand the role of working equids and may help to collect and provide information to support policy formulation, to advocate and promote health and welfare of working equids.

Local NGOs are potential partners of the Veterinary Services in the development and implementation of working equid health and welfare programmes.

NGOs may also contribute, together with veterinarians and Competent Authorities, in educating the public in the importance of the welfare of working equids.

6. Working equid owners and users

Owners and users are ultimately responsible for the welfare of their working equids by ensuring their animals' "five freedoms" (Article 7.1.2.).

Article 7.12.4.

Criteria or measurables for the welfare of working equids

The following outcome-based measurables can be useful indicators of animal welfare. The use of these indicators and the appropriate thresholds should be adapted to the different situations where working equids are used.
1. **Behaviour**

Presence or absence of certain equine behaviours could indicate an *animal welfare* problem, including fear, depression or pain. Behaviours differ between horses, donkeys and mules and a good understanding of normal behaviour of each species is required.

Some behaviours may not be uniquely indicative of one type of problem; they may be exhibited for a variety of causes. Depression, apathy, dullness and lethargy in equids that are normally active and alert can be indicative of a welfare problem. Changes in eating or drinking patterns may indicate a welfare problem, especially a decreased feed intake. This might also be an indicator of dental problems, poor feed quality or even feed contamination.

Behaviours indicating discomfort or pain:

- head pressing, teeth grinding, grunting, food dropping, and inability to eat normally. Such behaviours may indicate disease or pain;
- depression, circling, foot pawing, flank watching, inability to stand up, and rolling. Such behaviours may indicate abdominal or other discomfort;
- disturbance of ground or bedding. Such behaviours may indicate disease, abdominal pain, malnutrition;
- weight shifting, foot pawing, reluctance to move or abnormal movement. Such behaviours may indicate leg, foot, spinal or abdominal pain;
- head shaking or avoidance of head contact. Such behaviours may indicate head, ear or ocular discomfort;
- itching, rubbing, self-inflicted abrasions. Such behaviours may indicate skin problems or parasites;
- restlessness, agitation and anxiety, rigid stance and reluctance to move, lowered head carriage, fixed stare and dilated nostrils, clenched jaw, aggression and reluctance to be handled, may indicate non-specific pain in horses. In donkeys, these behaviours are more subtle and may not be recognised;
- vocalisation, rolling, kicking at abdomen, flank watching and stretching may indicate abdominal pain in horses. In donkeys, these behaviours are more subtle and may not be recognised;
- weight-shifting, limb guarding, abnormal weight distribution, pointing, hanging and rotating limbs, abnormal movement and reluctance to move may indicate limb and foot pain in horses. These signs are more subtle in donkeys, although repeated episodes of lying down are reportedly more indicative;
- headshaking, abnormal bit behaviour, altered eating, anorexia and quidding may indicate head and dental pain.

Behaviours indicating fear or anxiety:

- unusual avoidance of humans, especially when handlers or objects associated with their handling come close;
- a reluctance by the working equids to engage in their use for traction or transport or even a cessation and aggressive behaviour, especially when fitting equipment or loading is undertaken.

Behaviours indicating stress:

- oral stereotypies: crib biting, aerophagia ("wind sucking");
- locomotive stereotypies: stable walking, weaving.

2. **Morbidity**

Morbidity, including incidence of disease, lameness, injuries or post-procedural complications, may be a direct or indirect indicator of the *animal welfare* status.

Understanding the aetiology of the disease or syndrome is important for detecting potential *animal welfare* problems. Scoring systems, such as those used to score lameness and body condition, can provide additional information.

3. **Mortality**

Mortality, like morbidity, may be a direct or indirect indicator of the *animal welfare* status. Depending on the context, causes of mortality should be investigated as well as temporal and spatial patterns of mortality and possible relationship with husbandry and handling practices. Necropsy is useful in establishing the cause of death.

4. **Body condition and physical appearance**

Poor or changing body condition or physical appearance may be an indicator of compromised animal welfare and health and scoring systems help to provide objectivity.

Observation of physical appearance often provides an indication of animal welfare and health. Attributes of physical appearance that may indicate compromised welfare include:

- feet or limb abnormalities;
- wounds or injuries;
Chapter 7.12.- Welfare of working equids

- dehydration or signs of heat stress;
- abnormal discharges;
- presence of parasites;
- abnormal coat or hair loss;
- excessive soiling with faeces, mud or dirt;
- emaciation.

5. Handling responses

Poor human-animal interactions can lead to or be caused by improper handling. This may include bad driving and inappropriate restraint methods, or the misuse of whips and sticks, and can result in fear and distress.

Indicators include:
- aversive or apathetic responses to fitting of equipment and loads,
- defensive responses from the equid to the owner or user such as threatening facial expressions, kicking, biting and avoiding human contact.

6. Complications due to management practices

Some management practices, such as castration and hoof care, are commonly performed in working equids to facilitate handling and improve human safety and animal welfare.

Working equids are shod for two main reasons; to prevent hoof wear and to improve performance. Many equids cope well without shoes and, if they are coping well, are best unshod. However, poor hoof care and farriery predispose the working equid to injury and infection, and can result in changes to the size, shape and function of the hoof. Untreated abnormalities of the foot can create long-term problems in other parts of the leg and body due to change in gait and weight bearing.

If management practices such as these are not performed properly, animal welfare may be compromised.

Indicators of such problems include:
- post-procedure infection and swelling;
- post-procedure lameness;
- myiasis;
- behaviour indicating pain or fear;
- mortality.

It is important to note that some practices are not based on evidence and are inherently bad for welfare. Evidence of firing, nasal slitting, lampas cutting and harmful substances applied to wounds should be identified as indicators of poor welfare.

7. Lameness

Traditionally, lameness has been defined as any alteration of the horse's gait. In addition, lameness can manifest in such ways as a change in attitude or performance. These abnormalities can be caused by pain in the neck, withers, shoulders, back, loin, hips, legs or feet. Identifying the source of the problem is essential for proper treatment. Lameness or gait abnormalities are the most common signs of working equids seen by veterinarians.

Various scoring systems are available to assess the degree of lameness.

Indicators of such problems include:
- hoof conformation abnormalities;
- unequal weight bearing;
- hoof and pastern axis and angles.

8. Fitness to work

Fitness to work is the state or condition of being physically sound and healthy, especially as a result of exercise and proper nutrition, to perform work well. Various factors such as the animal's age, breed or physiological state (e.g. pregnancy) may influence its fitness to work.

Indicators of an equid's inability to carry out the work demanded of it include the presence of heat stress, lameness, poor body condition or weight loss, harness related wounds and aversive behavioural responses to, for example, harness or equipment fitting.
Chapter 7.12. - Welfare of working equids

Article 7.12.5.

Recommendaions

Articles 7.12.6. to 7.12.13. provide recommendations for measures applied to working equids.

Each recommendation includes a list of relevant outcome-based measurables derived from Article 7.12.4. This does not exclude other measures being used when appropriate.

Article 7.12.6.

Feeding and provision of water

1. Feeding
   Equids are natural grazers that eat small amounts often. Their natural diet is mainly grasses, which have a high roughage content. Horses in particular should be fed frequently with a predominantly fibre-based diet: either grass, hay or a suitable and safe alternative in order to mimic their natural feeding pattern as closely as possible.

   Energy, fibre, protein, mineral (including trace minerals) and vitamin contents in the diet of working equids, their balance, safety, digestibility and availability are major factors determining the power of the animals, their growth and overall productivity and their health and welfare.

   Working equids should be provided with access to an appropriate quantity of balanced and safe feed, of adequate quality to meet their specific physiological and working needs. In case of feed shortages, the animal handler should ensure that the period of reduced feeding is as short as possible and that mitigation strategies are implemented if welfare and health are at risk of being compromised.

   If supplementary feed is not available, steps should be taken to avoid starvation, including slaughter, sale or relocation of the animals, or humane killing.

   Owners and handlers should allow working equids to forage whenever possible and allow for an adequate number of working breaks to allow the animals to eat. Cut green forage should be provided when grazing is not possible. Long fibre forage is important and should be provided when adequate green forage is not available.

   Inadequate diets and feeding systems may contribute to disease, stress, discomfort or to abnormal behaviour in working equids and should be avoided. Animal handlers should be aware of the animals' nutritional needs and consult an expert for advice on ration formulation and feeding programmes when needed.

2. Provision of water
   The most important nutrient for the welfare of working equids is water. Working equids need regular and adequate access to palatable, safe water that meets their physiological and work requirements which may vary.

   Outcome-based measurables: behaviour, morbidity, mortality, body condition and physical appearance, and fitness to work.

Article 7.12.7.

Shelter

Effective shelter should be provided for working equids both in the resting and working environments. Shelter should provide protection against adverse weather conditions and against predators and injury as well as good ventilation and the ability to rest comfortably. Resting space should be dry, clean and large enough for the equid to lie down, get up and turn around easily.

1. Heat stress
   Heat stress is a common condition in working equids in hot, humid environments and animal handlers should be aware of the risk that heat stress poses. Equid owners and handlers should be aware of how to prevent it through provision of appropriate shade or shelter along with sufficient drinking water and avoiding work at extreme high
temperatures. Owners may also be trained in effective treatment of hyperthermia as timely veterinary assistance may not be available. Behaviours which indicate heat stress include increased respiratory rate and effort; flared nostrils; increased head movement and lack of response to the environment. Outcome-based measurables: behaviour, morbidity, mortality, body condition and physical appearance and fitness to work.

2. **Cold**

Protection from extreme cold weather conditions should be provided when these are likely to create a serious risk to the welfare of equids, particularly of neonates and young animals and others that are physiologically compromised. Such a protection could be provided by extra bedding, blankets or shelter. Care should be taken that, in an attempt to protect against the cold, ventilation and air quality are not compromised. Behaviour which indicates suffering from cold stress includes shivering and huddling together. Outcome-based measurables: behaviour, mortality and body condition and physical appearance.

3. **Protection from predators and injury**

Working equids should be kept safe from predators and from road accidents, which are common occurrences if equids are left free to roam. If working equids are housed alongside horned cattle, care should be taken to protect them from injury. Enclosures used should be structurally sound and free of sharp edges, protrusions and other features that could cause injury. Outcome-based measurables: behaviour, morbidity, mortality, body condition and physical appearance and lameness.

---

**Article 7.12.8.**

**Management of disease and injuries**

1. **Biosecurity**

   *Biosecurity plans* should be designed, commensurate with the desired health status of the equid population or herd and current disease risk. These *biosecurity plans* should be promoted with stakeholders for effective implementation and should address the control of the major sources and pathways for spread of pathogens by:

   a) equids;
   
   b) other animals and vectors;
   
   c) people;
   
   d) equipment;
   
   e) vehicles;
   
   f) air;
   
   g) water supply;
   
   h) feed.

   Outcome-based measurables: morbidity, mortality, changes in body condition and physical appearance.

2. **Animal health management**

   Effective national programmes for the prevention and treatment of working equid *diseases* and conditions require clear roles and responsibilities to be defined for official and private animal health service personnel as well as for owners.

   Owners and handlers of working equids should be aware of signs of ill-health, disease, distress and injuries. If they suspect the presence of disease and are not able to manage it, they should seek advice from veterinarians or other qualified persons.

   Non-ambulatory working equids should have access to feed and water at all times. They should not be transported or moved unless absolutely necessary for treatment or diagnosis. Such movements should be done carefully using methods that avoid dragging or excessive lifting.

   When treatment is attempted, equids that are unable to stand unaided and refuse to eat or drink should be euthanised in accordance with Chapter 7.6., as soon as recovery is deemed unlikely.

   Outcome-based measurables: morbidity, mortality, behaviour, body condition and physical appearance.
Article 7.12.9.

Handling and management practice

Management practices should be accomplished expertly and with the proper equipment and pain relief if appropriate. Painful husbandry procedures should be performed under the recommendation or supervision of a veterinarian.

Drivers and handlers should be trained to acquire good management skills.

Poor management practices include bad handling, inappropriate restraint such as too tight tethering or hobbling, the working of animals that are unfit or immature, poor housing that does not protect the equids from adverse weather conditions, inadequate handling equipment, excessive number of working hours, underfeeding, lack of access to water, lack of resting periods, working under heat stress, overloading, beating or whipping and some traditional practices.

Competent Authorities and veterinarians should educate owners and handlers of working equids to cease unsafe, ineffective and inhumane practices and also encourage good management and handling skills.

Working equids should not be kept confined indoors for long periods.

Working equids should not be tethered or hobbled continuously. In situations where temporary hobbling is necessary, the animal handlers should ensure sufficient distance between the two hobbled legs to allow the equid to stand naturally and move without risk of injury.

When temporary tethering is necessary working equids should be able to lie down, and if tethered outdoors, turn around and walk. The tethering site should be free from obstructions that may entangle the tether. Adequate water, feed and supervision should be provided; if necessary, action should be taken by moving the animals to areas providing shade or shelter.

Mares in season should not be tethered near stallions; mares about to foal or with a foal should not be tethered.

Equipment used to hobble should be designed for that purpose. The parts of the hobbles which are in contact with the skin should not be made from material that causes pain or injury.

Owners and users of working equids should be discouraged from using whips and harmful goads such as sticks. Instead humane training practices for equids should be promoted which focus on developing good driving practices.

Outcome-based measurables: behaviour, morbidity, mortality, body condition and physical appearance, lameness and fitness to work.

Article 7.12.10.

Behaviour

Animal handlers should be familiar with normal and abnormal behaviour of each type of working equid in order to interpret the welfare implications of what is being observed.

Good human-animal interaction should be positive in order not to compromise the welfare of the working equid.

Different natural behaviours and social interactions between horses, mules and donkeys should be taken into account.

Outcome-based measurables: behaviour, body condition and physical appearance, and fitness to work.

Article 7.12.11.

End of working life

Consideration should be given to end of life issues.

Abandonment of equids should be discouraged. The Competent Authorities should develop and implement guidance or legislation to prevent abandonment while taking steps to make provision for abandoned animals to ensure their welfare.

When working equids need to be slaughtered or killed, recommendations in Chapters 7.5 and 7.6. should be followed to avoid the equids suffering a prolonged and painful death by abandonment, neglect or disease or acute, painful death such as being eaten by wild animals, or hit by a road vehicle.
Chapter 7.12 - Welfare of working equids

Article 7.12.12.

Appropriate workloads

Equids continue to develop until over the age of five years so consideration should be given, according to workload, as to when working life commences. In general this should be three years of age or more but never less than two years of age. Animals that are subjected to excessive work too young in life will usually suffer from leg and back injuries in later life, resulting in a much-reduced working life.

Mares should not be ridden or worked three months before and after foaling.

Special considerations should be given to old animals.

Animals should work a maximum of six hours per day and should be given at least one, preferably two, full day’s rest in every seven-day period. Consideration should be given to the animal's physical condition and age and the work load should be adjusted accordingly.

Consideration should be given to the weather conditions (work should be reduced in very hot weather). Breaks should be given at least every two hours and drinkable water should be provided.

All animals should receive sufficient good quality feed corresponding to their individual requirements. Drinkable water and roughage should be available to aid digestion.

Sick or injured animals should not be worked. Any animal that has been under veterinary treatment should not be returned to work until advised by the veterinarian.

Outcome-based measurables: behaviour, body condition and physical appearance, lameness and fitness to work.

Farriery and harnessing

1. Farriery

Owners and handlers should routinely clean and check the hooves of the working equid before and after work.

Hoof trimming and shoeing of working equids should only be performed by persons with the necessary knowledge and skills.

Outcome-based measurables: behaviour, body condition and physical appearance, lameness and fitness to work.

2. Harnessing

A properly designed, well-fitted and comfortable harness allows the working equid to pull the equipment to the best of its ability, efficiently and without risk of pain or injuries. Harness injury should be prevented by using properly fitted and adjusted harness which is checked daily for damage and repaired promptly as necessary. Equids should be checked after work for signs of rubbing and hair loss and the source of any problems should be removed through maintenance and padding where required.

Harnesses should not have sharp edges which could cause injury; should fit well so that it does not cause wounds or chafing caused by excess movement; should be smoothly shaped or padded so that loads imposed on the
working equids' bodies are spread over a large area; and should not impede the animal's movement or normal breathing or restrict blood supply.

Carts should be maintained to ensure accurate balancing and appropriate tyre pressure. For draught equids the use of swingletrees is recommended so as to balance the pull and thus as a result reduce the risk of sores from the harness.

Owners should ensure effective harnessing and good riding and driving practices.

Bits should be of a simple type (such as a straight bar snaffle), depending on work, but should always be smooth, appropriately sized for the equid and kept clean. Inappropriate materials such as thin cord or wire should never be used as bits or to repair bits.

Outcome-based measurables: behaviour, body condition and physical appearance, lameness and fitness to work.
12 August 2015

Excellency,

I have the honour to transmit herewith the outcome document of the United Nations Summit for the adoption of the post-2015 development agenda which was agreed by consensus, as indicated in the attached letter dated 11 August 2015 from the Co-Facilitators of the intergovernmental negotiations on the post-2015 development agenda, H.E. David Donoghue, Permanent Representative of Ireland, and H.E. Macharia Kamau, Permanent Representative of Kenya.

I would like to commend the Co-Facilitators, Member States and Observers for the tireless efforts and constructive engagement that culminated in this successful outcome.

In early September, on a date to be communicated in due course, I will convene a plenary meeting of the General Assembly to take action on a draft resolution to transmit the outcome document to the seventieth session for consideration and adoption during the Summit.

Please accept, Excellency, the assurances of my highest consideration.

Sam K. Kutesa

All Permanent Representatives and
Permanent Observers to the United Nations
New York
habitats are safe, resilient and sustainable and where there is universal access to affordable, reliable and sustainable energy.

8. We envisage a world of universal respect for human rights and human dignity, the rule of law, justice, equality and non-discrimination; of respect for race, ethnicity and cultural diversity; and of equal opportunity permitting the full realization of human potential and contributing to shared prosperity. A world which invests in its children and in which every child grows up free from violence and exploitation. A world in which every woman and girl enjoys full gender equality and all legal, social and economic barriers to their empowerment have been removed. A just, equitable, tolerant, open and socially inclusive world in which the needs of the most vulnerable are met.

9. We envisage a world in which every country enjoys sustained, inclusive and sustainable economic growth and decent work for all. A world in which consumption and production patterns and use of all natural resources—from air to land, from rivers, lakes and aquifers to oceans and seas—are sustainable. One in which democracy, good governance and the rule of law as well as an enabling environment at national and international levels, are essential for sustainable development, including sustained and inclusive economic growth, social development, environmental protection and the eradication of poverty and hunger. One in which development and the application of technology are climate-sensitive, respect biodiversity and are resilient. One in which humanity lives in harmony with nature and in which wildlife and other living species are protected.

**Our shared principles and commitments**

10. The new Agenda is guided by the purposes and principles of the Charter of the United Nations, including full respect for international law. It is grounded in the Universal Declaration of Human Rights, international human rights treaties, the Millennium Declaration and the 2005 World Summit Outcome Document. It is informed by other instruments such as the Declaration on the Right to Development.

11. We reaffirm the outcomes of all major UN conferences and summits which have laid a solid foundation for sustainable development and have helped to shape the new Agenda. These include the Rio Declaration on Environment and Development; the World Summit on Sustainable Development; the World Summit for Social Development; the Programme of Action of the International Conference on Population and Development, the Beijing Platform for Action; and the United Nations Conference on Sustainable Development ("Rio+20"). We also reaffirm the follow-up to these conferences, including the outcomes of the Fourth United Nations Conference on the Least Developed Countries, the Third International Conference on Small Island Developing States; the Second United Nations Conference on Landlocked Developing Countries; and the Third UN World Conference on Disaster Risk Reduction.

12. We reaffirm all the principles of the Rio Declaration on Environment and Development, including, inter alia, the principle of common but differentiated responsibilities, as set out in principle 7 thereof.

13. The challenges and commitments contained in these major conferences and summits are interrelated and call for integrated solutions. To address them effectively, a new approach is needed. Sustainable development recognizes that eradicating poverty in all its forms and dimensions, combatting inequality within and among countries, preserving the planet, creating sustained, inclusive and sustainable economic growth and fostering social inclusion are linked to each other and are interdependent.

**Our world today**

14. We are meeting at a time of immense challenges to sustainable development. Billions of our citizens continue to live in poverty and are denied a life of dignity. There are rising inequalities within and among countries. There
CONSOLIDATED VERSION

OF

THE TREATY ON THE FUNCTIONING OF THE

EUROPEAN UNION
**Article 12**  
(ex Article 153(2) TEC)

Consumer protection requirements shall be taken into account in defining and implementing other Union policies and activities.

**Article 13**

In formulating and implementing the Union’s agriculture, fisheries, transport, internal market, research and technological development and space policies, the Union and the Member States shall, since animals are sentient beings, pay full regard to the welfare requirements of animals, while respecting the legislative or administrative provisions and customs of the Member States relating in particular to religious rites, cultural traditions and regional heritage.

**Article 14**  
(ex Article 16 TEC)

Without prejudice to Article 4 of the Treaty on European Union or to Articles 93, 106 and 107 of this Treaty, and given the place occupied by services of general economic interest in the shared values of the Union as well as their role in promoting social and territorial cohesion, the Union and the Member States, each within their respective powers and within the scope of application of the Treaties, shall take care that such services operate on the basis of principles and conditions, particularly economic and financial conditions, which enable them to fulfil their missions. The European Parliament and the Council, acting by means of regulations in accordance with the ordinary legislative procedure, shall establish these principles and set these conditions without prejudice to the competence of Member States, in compliance with the Treaties, to provide, to commission and to fund such services.

**Article 15**  
(ex Article 255 TEC)

1. In order to promote good governance and ensure the participation of civil society, the Union’s institutions, bodies, offices and agencies shall conduct their work as openly as possible.

2. The European Parliament shall meet in public, as shall the Council when considering and voting on a draft legislative act.

3. Any citizen of the Union, and any natural or legal person residing or having its registered office in a Member State, shall have a right of access to documents of the Union’s institutions, bodies, offices and agencies, whatever their medium, subject to the principles and the conditions to be defined in accordance with this paragraph.
