Once logged in (username: mineps, password: unesco), you can choose in which language you wish to proceed.

The MINEPS VI Virtual Working Space (VWS) is available in two languages: English and French.

Main and Specific Policy Areas’ tabs are to be found in French. However, the documents in French are available to a limited extent.

The VWS design follows the form of the MINEPS Sport Policy Follow-up Framework and is constantly being developed and updated.
When you have chosen your language, on the menu on the left hand side you can choose where you want to proceed.

*MINEPS VI Programme Committee General Documents* are to be found in the top tab containing basic documents such as the Declaration of Berlin and the International Charter of Physical Education, Physical Activity and Sport.

All the process documentation including the meeting reports from the meetings of the Working groups can be found in *Meeting Reports and Presentations*.

The Manual for the Working group can be found under the similar tab. It contains detailed instructions for the members of the Working groups on how to contribute to the MINEPS VI preparation process.

The latest updated version of the MINEPS Sport Policy Follow-up Framework is to be found in the *MINEPS Sport Policy Follow-up Framework* tab.

Documents submitted from the members of three Working groups which have worked under the guidance of the Programme Committee, can be found under their respective *Main Policy Area*.

The *Poster Exhibition* tab contains all the relevant information and poster guidelines for the MINEPS Poster Exhibition.

A Glossary of MINEPS V (amended by Working group members) is available under the menu tab *Glossary*. 
Main and Specific Policy Areas

Under each of the three Main Policy Areas there are Specific Policy Areas listed.

For each Specific Policy Area it is possible to access Norms, Resources, Monitoring and Evaluation, Research and Promotion/Advocacy documents which have been submitted by Working group members who have worked under the guidance of the Programme Committee.

Most of the documents are available in pdf format to be downloaded; for some the links are provided.

Question: Which normative documents have been submitted so far in the area of strengthening the fight against doping?

For the overview of all documents refer to the MINEPS Sport Policy Follow-up Framework tab.
... or go directly to the Main Policy Area III – Protecting the integrity of sport tab.

Search for relevant Specific Policy Area, in this case Strengthen measures against doping.

Search for Norms.
**Question:** Where do I find MINEPS VI Literature review?

All the basic documents, including the MINEPS VI Literature review can be found in *Programme Committee General Documents* tab.
